CHAIRMAN'S MESSAGE

Dear Members,

I present to you your Company's Annual Report for the financial year 2019-20.

I am pleased to report another year with conventional performance achieving revenues of ₹ 2,128.85 Crores. Though the revenue growth may not appear high, given the 'under pressure' market situation the same is acceptable. Your company achieved decent freight volume growth during the year. It missed out on the typical year end surge that gets witnessed during March end every fiscal due to the Covid-19 pandemic.

Every individual across the globe talks about Covid-19 as it has impacted the lives of everyone. No business entity too remained immune to its effects. For us, this pandemic indeed brought about a huge adverse financial impact. Our business was suddenly brought to a complete standstill owing to the lockdown imposed by the Government. Starting from the latter part of March 2020 it gradually curtailed our operations and many of our branch offices across key markets remain closed even today. Though Transportation was identified as an essential service, we faced problems such as insufficient loads, driver shortage, labour shortage and many other problems. Overheads spiked as additional expenses towards idle capacity, sanitization of offices, meeting fixed costs etc. were incurred.

This pandemic also brought about severe disruption in the Surface Logistics industry in India which is dominated by unorganized players comprising of small fleet owners. Many of these have found the going tough and have been severely affected. Recovery and eventual business commencement looks doubtful for many of such players. This is a sad development but also presents an opportunity for organized players in the market such as your Company.

Even in the pre-Covid era, the markets were sluggish and growth was only inflation driven. This pandemic will surely ensure that demand for white goods, premium and niche products would reduce as frugality is soon becoming a part of every Indian's lifestyle. The business model of your Company has the inherent strength of non-dependence on any particular customer, geography, product or industry and as such will be able to continue to maintain its pre-pandemic business level without much ado.

In the coming days would however need to be ever cautious and ensure that we adapt and respond in a timely manner to regulatory changes which are being rolled out at a very fast rate. Be it changes to fuel prices or changes to GST provisions or individual State level or regional development, a constant review and timely initiation of necessary action internally needs to be ensured. We have a very robust review and monitoring mechanism / risk management framework which is being handled by the top most executives on a pan-India basis and working well.

We expect that 2020 will be a lost year for earnings growth in our industry and most industries around the world. Our first priority is to keep our employees out of harm's way. Second is our duty as an essential provider of transportation and logistics services, we continue to help business move their freight so the economy can get back on its feet. We would need to improve upon the recent operational bottlenecks created by this pandemic and ensure that we again reach and better our service levels. We move ahead cognizant that we are likely to see volatility in the economy that may impact our logistics business, as well as slower market activities in certain markets. We however remain confident that despite these challenges, our team will surely navigate through them and emerge successful.

I wish to emphatically state that I am confident that we would overcome our present day fear of this pandemic and go back to our normal lives eventually with a minor changes to our lifestyle. From a business perspective, medicines will still be purchased, food items will still get sold, infrastructure developments will continue to happen and so on and only a few industries such as Tourism, Hospitality, Aviation, etc. would suffer in the medium term. For organized logistics players like us, better days are bound to come in the near future. The financial year 2020-21 would be a one-time aberration and would necessitate the continues support of all related stakeholders. We will continue to invest in the business to drive efficiency and seed future growth, even as we confront concerns about downward pressure on global trade volumes, uncertain growth prospects, and ongoing trade frictions between large economies. We are also keenly observing the macro-economic trends and the possibility of India emerging as an alternative investment and manufacturing hub for the developed world. In this scenario, a strong logistics sector can go a long way in economic resurgence and boosting India's expedition for being a manufacturing leader. Companies like yours would definitely stand to gain.

I request you to go through the Annual Report and send your queries by email to us at investors@vrllogistics.com. I invite all members to join us at your company's Thirty Seventh AGM on the 14th August 2020, where we can receive your guidance and suggestions.

As always, I would like to sincerely thank our shareholders for the overwhelming trust, support and confidence, our employees at all levels for their wholehearted dedication and efforts. It was another year of sustained performance with significant achievements across our business. None of this would have been possible without the dedication and determination of our people. I also wholeheartedly thank all the stakeholders -Investors, Customers, Suppliers, Bankers, Government authorities, Regulators and the management team including the Co-Directors on the Board for their hard work and commitment to this great Company with their continued association with the Company and seek such continued support in the days to come.

Sincerely,

DR. VIJAY SANKESHWAR

AGENDA 9

The Shareholders of the Company at the 34th Annual General Meeting held on August 4th, 2017 approved the re-appointment of Dr. Vijay Sankeshwar as the Chairman and Managing Director of the Company for a period of five years effective from January 1st 2017 upto 31st December 2021 and fixed the remuneration payable to him for a period of 3 (three) years from 1st January 2017 to 31st December 2019. The same needs to be fixed for remaining period of his appointment i.e. from 01.01.2020 upto 31.12.2021 and necessary approval of the shareholders needs to be taken in respect thereof.

Dr. Vijay Sankeshwar has indicated **that he does not seek any enhancement** in the remuneration being paid to him. As such, the management of the Company proposes the continuation of the same remuneration as was being paid to him earlier, which is as follows:-

Also, in light of the COVID-19 impact on the financial performance of the company, the management anticipates a one-time profit erosion / reduction for the current fiscal. As such, any remuneration payable to him for the current year would necessitate an approval of the shareholders to remain in compliance with the managerial remuneration provisions as contained in the Companies Act, 2013, as also SEBI (LODR) Regulations 2015 to protect minimum remuneration. Pursuant to the provisions of the sections 196, 197 & 198, read with Schedule V to the Companies Act, 2013 (the Act) and the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, remuneration paid/payable to Dr. Vijay Sankeshwar for the financial year 2020-21 is expected to be in excess of the limits prescribed under schedule V of the Companies Act 2013 in view of inadequate profits/ absence of profits for the financial year 2020-21. Also, the remuneration being fixed for the balance period of his tenure needs to be approved by the shareholders under Schedule V of the Companies Act, 2013.

The Nomination and Remuneration Committee and the Board recommended the continuation of the existing remuneration to Dr. Vijay Sankeshwar at their meeting held on 20.06.2020. The members were also briefed that the same remuneration be paid in case of inadequate profit or absence of profit in compliance with schedule V of the Companies Act, 2020. Also, an approval of the shareholders as prescribed under Schedule V is sought for the balance period of his tenure as a precautionary measure. Similarly, necessary approval under Regulation 17 (6) of the SEBI (LODR) Regulations is proposed to be taken in this regard.

Except Dr. Vijay Sankeshwar and Mr. Anand Sankeshwar, none of the other Directors and Key Managerial Personnel of the Company are concerned or interested, financially or otherwise, in the said resolution.

The Board recommends the resolution set forth in agenda No. 9 for the approval of the Members.

Information pursuant Listing Regulations and Secretarial Standard 2 issued by the Institute of Company Secretaries of India is provided as annexures A respectively to this Notice

Additional disclosure as mandated under Schedule V of the Companies Act, 2013 for payment of remuneration in excess of the limits prescribed therein in the event of inadequate profits/ absence of profits for Item No 9 are included in the Notice as Annexure B hereto.

AGENDA – 10,11 & 12

At the 36th Annual General Meeting of the Company, Mr. Anand Sankeshwar, was reappointed as Managing director of the Company w.e.f 1st April 2019 for a period of five years. Mr. L R Bhat, Executive Director and Mr. K N Umesh, Executive Directors are whole time directors on the Board of the Company and considering the possible Covid-19 impact on the financial results of the Company, remuneration being paid to them would necessitate an approval by the Shareholders as prescribed under Schedule V of the Companies Act, 2013, to protect minimum remuneration.

In light of the COVID-19 impact on the financial performance of the company, the management anticipates a one-time profit erosion/reduction for the current fiscal.

As per requirement of Schedule V of the Companies Act 2013 and its applicable provisions and rules made there under), members approval by way of special resolution is required for payment of minimum remuneration to Managing Directors and Whole-time Directors in case the same is in excess of limits prescribed under the Companies Act, 2013 in case of inadequate profits/ absence of profits. Considering the imminent financial impact of this pandemic over the ensuing fiscal as also as a precautionary measure, shareholders' approval is sought for continuing the payment of remuneration to them. Approval of shareholders is also being sought for continuing the payment of remuneration to Mr. Anand Sankeshwar as required under Regulation 17 (6) of the SEBI (LODR) Regulations, 2015.

The Nomination & Remuneration Committee and Board of Directors of the Company at their meeting held on 20th June 2020 have approved remuneration paid/payable to the Managing Director and Whole-time Directors for the financial year 2020-21 which is expected to be in excess of the limits prescribed under Schedule V of the Companies Act, 2013 in view of inadequate profits/ absence of profits in the said financial year 2020-21. The remuneration being presently paid to them is proposed to be continued as it is, details whereof are given below and the said remuneration be treated as the minimum remuneration payable to them going ahead.

The details of remuneration of Managing Director and Whole Time Directors are mentioned below:

Additional disclosure as mandated under Schedule V of the Companies Act, 2013 for payment of remuneration in excess of the limits prescribed therein in the event of inadequate profits/ absence of profits for Item No 9 are included in the Notice as Annexure B hereto.

The following additional information as required under Schedule V of the Companies Act, 2013 for Item No 9 to 12 are as given below:

Except Mr. Anand Sankeshwar, Dr. Vijay Sankeshwar (by virtue of his being related to Mr. Anand Sankeshwar), Mr. L R Bhat and Mr. K N Umesh, none of the other Directors and Key Managerial Personnel of the Company are concerned or interested, financially or otherwise, in this Resolution.

AGENDA 13

APPROVAL, CONSIDERATION AND RATIFICATION OF REMUNERATION FIXED BY THE BOARD FOR COST AUDITOR TO CONDUCT THE COST AUDIT OF THE WIND POWER DIVISION OF THE COMPANY

The Ministry of Corporate Affairs has issued Companies (Cost Records & Audit) Amendment Rules, 2014 which, *inter alia*, warrants the maintenance of cost records in respect of the wind power generation activity of the Company. In compliance of the said rules and based on the recommendation of Audit Committee, the Board has approved the re-appointment of M/s. S K Tikare & Co, Cost Auditors to audit the cost records of the wind power division of the Company at a remuneration of ₹ 70,000/- for the financial year 2020-21, subject to the approval of members.

Accordingly, the resolution as stated in the Notice is commended for approval of the members.

None of the Directors, Key Managerial Personnel or their relatives are interested in this item of business.

No upward revision in remuneration of any of the whole time directors is being sought. Their continued availability and service is important for the survival and growth of the Company. Due to expected reduction in the net profit of the company as compared to previous years as also on a precautionary note, we wish to protect the existing remuneration being paid to the existing directors with the approval by the Shareholders of the Company.

6. Comparative remuneration profile with respect to industry, size of the Company, profile of the position and person:

The current remuneration being paid to the Chairman & Managing Directors and Whole time Directors of the Company

(looking at the profile of the position and person) is commensurate with their standing, efforts, scale and size and scale of operations of the Company. Also, the payments being made are in line with the payments being made by other Companies of similar size as also in line with the payments being made by the other reputed Companies in the Industry.

7. Pecuniary relationship directly or indirectly with the company, or relationship with the managerial personnel, if any:

	Dr. Vijay Sankeshwar	Mr. Anand Sankeshwar	Mr. L R Bhat	Mr. K N Umesh

III OTHER INFORMATION

1. Reasons of loss or inadequate profits:

The Company had adequate profits upto the financial year ended 31st March, 2019 and the remuneration paid to the Managing and Whole time Directors was well within the applicable limits prescribed under the Companies Act, 2013 as also under SEBI (LODR) Regulations, 2015 as applicable.

Covid-19 pandemic has spread across the Globe and in India and has created massive negative disruptions in the business operations of one and all. The Company's business operations too have been severely affected and has rendered this fiscal a difficult one on the business performance front. Till date, in the current First quarter of the fiscal we have seen negligible revenue generation leading to significant recurring fixed costs not being absorbed by operating revenues. The Company operates its business using an "asset heavy" model and employs nearly 20000 individuals and this has put severe pressure on the performance of the Company.

However, consequent to global slowdown due to COVID-19 pandemic, there is a global hit in the market for the FY 2020-21 and the Company expects that the financial results for FY 2020-21 would be adversely impacted. At this juncture, on a conservative note we are unable to quantify the expected quantum of losses.

2. Steps taken or proposed to be taken for improvement:

The Company has been earning profits in the past consistently on standalone basis and we expect to do well in future. The business of the Company is consistently growing since inception and this disturbance in performance is owing to the unforeseen COVID-19 pandemic. This is expected to be a one-off occurrence and the management is confident on continuing the business growth in the years to come.

We are focusing on ensuring the availability of sufficient number of drivers and labour to ensure ground level operations. We are well prepared in advance to have sufficient manpower as volumes go up gradually as expected. We have approached our lenders for increase of these limits and have got these sanctioned. We

are ensuring that our vehicles get deployed on routes that have sufficient load. Considering the incremental overhead costs necessitated out of Covid-19 developments, we have also enhanced our freight rates across all customer categories.

3. Expected increase in productivity and profits in measurable terms:

The inherent strength in our business model ensures that the Company is not dependent on any particular customer or industry for its revenues. In these difficult times, the available drivers and vehicles are being selectively deployed for Full Truck Loads and Parcels depending on return load and other ground level position as the situation warrants. We are transacting freight business coming our way and our entire team has been following with existing customers as also potential customers for getting business.

The Company has not availed the option to postpone the repayment of the principal amounts due on its outstanding loans. The Company has honored its debt service obligations in a timely manner and would continue to do so in the days to come. This itself is demonstrative of the confidence that the management has on the results for the short term.

Going ahead, we believe that we need to live through with the Corona virus and find ways and means to overcome the challenges it presents. Historically, man has overcome every such pandemic and the adverse economic effects of these are at best temporary. Our Company is financially strong and well placed to overcome this temporary setback. From the second quarter onwards, we expect the recouping of losses. We expect the business volumes to start picking up going ahead.

IV. DISCLOSURES

The disclosures as required on all elements of remuneration package such as salary, perquisites etc. have been made in the Directors' Report under the heading "Corporate Governance" attached to this Annual Report. Specific disclosures mandated under Schedule V are as under :

A note on the said matter was filed with the stock exchanges and same has been reproduced below:

"Covid-19 pandemic has spread across the Globe and in India, it has created a massive void in the business operations that has affected one and all. Our Company's business operations too have been severely affected and has rendered this fiscal a difficult one on the business performance front. Our business is operational since 1976 and never ever have we seen a situation where the Company's finances have been under such extraordinary pressure."

Till date, in the current fiscal we have seen negligible revenue generation whereby the fixed costs have been not been absorbed by operating revenues. The Company operates an “asset heavy” model and employs nearly 20000 individuals and this has put severe pressure on the performance of the Company.

The lockdown commenced from the end of March 2020 and during these times, there have been several notifications from the Ministry of Home Affairs (MHA) which initially allowed the transportation of all essential goods within the country and later allowed even the movement of non-essential goods. These notifications also sought the free movement of goods vehicles across the country. The ground level reality however was different. We have listed out below a few major hurdles faced by our Company during the Lockdown:

1. MHA gave leverage for transportation of essential goods but Company faced the problem of scarcity in Drivers and labour for material handling. Initially, there was mass hysteria amongst the working class and several of our drivers deserted their posts in an attempt to reunite with their families at their respective home towns. We witnessed thereby a mass exodus of drivers which affected our operations adversely. Several of them could never make it and were stopped by the authorities on their way back and were quarantined for a long period of time. This hinders their availability to us going ahead in the near short term. We overcame several driver related challenges and ensured that our vehicles were safely parked at our respective offices and also ensured safety of materials in transit.
2. During the initial three phases of lockdown, the branch offices could not work full time. Even presently, the branches coming under red zone are not allowed to function and remain closed. These include several key commercial branches at places like Mumbai, Delhi, Pune, Chennai, Hyderabad, etc. The initial lockdown was strict and our branch offices hardly functioned. Later, once the relaxation was announced for the goods transportation sector, gradually these were made operational, albeit, for only for a part of the day and not full time as booking and delivery activities hardly got transacted. Customer factories and shops were also not functional and as such there was not business to transact.
3. The Company incurred substantial expense on ensuring that proper sanitation and hygiene was maintained across all its business premises. We ensured that all of our drivers and labours were provided with decent and hygienic accommodation at the respective places where they were upon commencement of lockdown. Proper food and other necessities were also duly provided for across the country. Sufficient number of masks, Sanitizers and related equipment were made available across the country in a timely manner. We have also setup sufficient facilities for sanitizing our offices and vehicles too. Apart from the above, significant resource was mobilized for educating our staff and creating awareness and taking precautions at each and every location to curb the entry of this pandemic. Suitable measures for social distancing at offices as also in Staff buses is maintained by us.
4. The commencement of migrant movement through the special trains organized by several state governments enabled the labour movement and our material handling labour across transhipment hubs started moving to their respective home states. We are facing lot of hurdles in organizing this category of manpower and presently have managed to source enough headcount of this category to ensure unhampered operations.
5. Business volumes are non-existent and at best negligible. The movement of migrant labour is expected to aggravate this situation in the near short term and till business find alternative and competent manpower, the freight volumes are expected to be low thereby casting a shadow on capacity utilization at our end. We are however ensuring that enquiries and business coming our way is dealt with in the best possible manner.
6. Maintenance costs need to be incurred on vehicles even when they remain idle to ensure their good condition and service availability as need arises.
7. On the passenger travel front, it is pertinent for us to state that the majority of the operational margin earnings from this segment accrue generally in the first quarter of any given fiscal given that the schools are on vacation as also owing to the marriage season during these days. This fiscal however none of our passenger buses were operational and there has been a complete loss of revenue from this segment. The commencement of operation of our buses has just started with numerous restrictions. The requirement of social distancing as also the absence of traveling populace is going to affect the revenues and performance of this segment. We are not sure when we would again see the buses operating on a full seat capacity basis.
8. Our middle and senior level employees, including our Executive Directors have taken a pay cut on a graded basis. We have however ensured that employees drawing lower salaries, forming a bulk of our total employee base, are paid in full irrespective of lockdown and lack of business. We have also ensured that the employee emoluments have been paid by us alongwith related statutory payments such as PF, ESI etc.
9. Company has nearly 1000+ branches for transportation related activities. Majority of these remained closed during the month of April 2020. We have approached the Lessors of these premises to consider waiver of the rent for the said month to help us overcome this difficult period and many of them have supported us by consenting to such waiver. Many of the Lessors have agreed for partial waivers as well.

Ability to maintain operations including offices functioning and closed down & Schedule for restarting operations:

The Company's offices continue to remain operational. However there are certain restrictions on the functioning of offices situated in the red zone. Several offices of the Company situated in red zones including those in Mumbai, Pune, Delhi, Chennai, etc. remain closed and would function only in compliance with the directives issued by the regulators. Even the

offices and transshipments which earlier operated throughout the day are operating only for the permitted part of the day and the Company is in compliance with the 7 pm. To 7 am. restrictions, as applicable.

Current Scenario & Steps taken to ensure smooth functioning of operations:

- We are focusing on ensuring the availability of sufficient number of drivers and labour to ensure ground level operations. The availability of this category of manpower is sufficient for the present business volume but we would need to be well prepared in advance to have sufficient manpower as volumes go up gradually as expected.
- Our working capital limits are under strain and we have approached our lenders for increase of these limits to which an in-principal consent has been confirmed by the Banks. We are able to tide over the temporary liquidity problem and availability of funds for day to day operations is not expected to be a big challenge.
- The availability of freight volumes is increasing day by day. Normal business operations with optimal capacity utilization however remains a far cry. Our management has however taken a cautious approach and we are trying to ensure that our vehicles get deployed on routes that have sufficient load. Considering the incremental overhead costs necessitated out of Covid-19 developments, we have also enhanced our freight rates across all customer categories.
- In compliance with the guidelines we have ensured the availability of thermal scanners to monitor body temperature at branch offices. Availability of sanitizers / soaps to wash hands etc. is ensured. Employees have been educated on social distancing need and also the need to maintain proper hygiene individually as also at the office premises. Guidance has also been repeatedly given by way of internal circulars to educate the employees on immunity boosting food and health practices. The branch inspection team which regularly visits the branch offices across the country have been specifically asked to include the verification of these aspects as a part of their routine audit visit once the inspection functions starts in a full-fledged manner.

Financial Impact:

"Historically, the first quarter of the fiscal is marked with higher revenues as also profit margins, especially for the Passenger Transport segment. The same does not hold good for this year. The incremental revenues accruing owing to vacations and marriage season etc. stands lost for the current year.

There was hardly any business for the month of April 2020. Even for the month of May 2020, the business volume is very low. The same has presented a temporary liquidity issue in the Company that has necessitated the management to approach its working capital lenders for a higher limit. This is however temporary and the Management does not see any liquidity problems as raising debt from the existing lenders poses no challenge.

The "asset ownership" model operated by the Company coupled with its nearly 20000 employee base presents significant monthly Fixed costs which need to be absorbed by the operating revenues. The revenues are meagre for the months of April and May and June is expected to be no different given that the Brick and Mortar businesses are labour dependent and the present mass labour movement poses production challenges for our clients. Thereby the management of the Company expects the results for the first quarter of FY 2020-21 to be discouraging. We expect the Company to report significant financial loss for this period.

The inherent strength in our business model ensures that the Company is not dependent on any particular customer or industry for its revenues. In these difficult times, the available drivers and vehicles are being selectively deployed for Full Truck Loads and Parcels depending on return load and other ground level position as the situation warrants. We are transacting freight business coming our way and our entire team has existing customers as also potential customers for getting business.

The Company has not availed the option to postpone the repayment of the principal amounts due on its outstanding loans. The Company has honoured its debt service obligations in a timely manner and would continue to do so in the days to come.

Going ahead, we believe that we need to live through with the Corona virus and find ways and means to overcome the challenges it presents. Historically, man has overcome every such pandemic and the adverse economic effects of these are at best temporary. Our Company is financially strong and well placed to overcome this temporary setback. From the second quarter onwards, we expect the recouping of losses. We expect the business volumes to start picking up significantly from August 2020 onwards and the restoration of freight volume normalcy by the last quarter of this fiscal.

Any quantification of financial results as of now would be at best guesswork and we do not wish to quantify these as the ground realities are dynamic and would render any estimation 'off-mark' in hindsight. Financial year 2020-21 is indeed an aberration in the history of this Company and a one-off year of abnormality. We expect the resumption of healthy financial growth from the next fiscal onwards.

We would keep all our stakeholders updated on any significant happenings going ahead too. We seek the support of all our stakeholders during these difficult times and request the continuation of faith in the management of the Company which is trying its best to come out with ways and means to mitigate the aftereffects of this unfortunate pandemic."

DIVIDEND DISTRIBUTION POLICY

1. PREAMBLE

SEBI vide its Notification dated 8th July 2016 amended the SEBI (Listing Obligations and Disclosure Requirements) Regulations 2015 and inserted a new Regulation 43A thereby making it mandatory for top 500 listed entities to have a policy on Dividend Distribution which shall provide the various parameters that are to be taken into consideration before declaration of any dividend. The Company being in the list of top 500 listed entities as per the data provided by the Exchanges as of March 31, 2016, needs to frame a policy in compliance with the said Regulation.

2. OBJECTIVE

The Key Objectives of the Committee would be:

- a. To define the policy and procedures of the Company in relation to the declaration / recommending Dividends.
- b. To ensure that the Company has sufficient distributable profits and/or general reserves, as determined by a review of the Company's audited financial statements, prior to any declaration and/or payment of Dividends.
- c. To ensure a regular dividend income for the members and long term capital appreciation for all stakeholders of the Company.
- d. To ensure the right balance between the quantum of dividend paid and amount of profits retained in the business for various purposes.

3. APPLICABILITY:

The policy set out herein relates to Equity Shares only and not applicable to any preference shares that the Company may issue or any other security on which dividend payment option may exist.

The Board of Directors reserves the right to modify this policy to accommodate the preference shares or make separate policy for preference shares or any other security in accordance with applicable provisions of the Companies Act, 2013 read with rules made there under as and when it deems fit and necessary or as and when it is statutorily required to the company.

The policy set out herein relates to final as well as Interim Dividend as may be proposed / recommended or declared by the Board from time to time.

4. SCOPE, LAW, RULES AND REGULATIONS:

The declaration and payment of dividend is governed by the provisions contained in chapter - VIII from section 123 to 127 of the Companies Act, 2013 read with the Companies (Declaration and Payment of Dividend) Rules 2014 (as amended from time to time). Also, SEBI (Listing Obligations and Disclosure Requirements) Regulations 2015 deals with the additional procedure for listed entities including prior intimation to Stock Exchanges, Record Date etc.

Other applicable Acts and guidelines include:

- Security Contract Regulation Act, 1956;
- Income Tax Act, 1961;
- Secretarial Standards on Dividend prescribed by the Institute of Company Secretaries of India;
- RBI Guidelines / Circulars / Notifications to the extent applicable,
- FEMA, 1999,
- SEBI Guidelines / Circulars etc.

The Company shall adhere to above laws in specific and to all other applicable laws in general while declaring or payment of dividend.

5. DECLARATION AND PAYMENT OF DIVIDEND

5.1 CIRCUMSTANCES UNDER WHICH DIVIDEND IS DECLARED

Maintaining a reasonable balance between cash retention and distribution of dividend would facilitate the smooth working of Company's affairs. The Company believes that cash retention is required for expansion and diversification of the Company including acquisitions to be made by it, and also as a means to meet contingencies.

a) Adequate Profits:

The Company shall declare dividends for a financial year out of the profits of the company for that year or out of the profits of the company for any previous financial year or years after providing for depreciation in accordance with applicable laws. The Company has a practice of paying dividend and has been consistently declaring and paying dividend for the previous 5 years.

The Company reserves the right to declare interim dividend during any financial year out of the surplus in the profit and loss account and out of the profits of the financial year in which such interim dividend is sought to be declared.

b) In-adequate Profits:

In the event of inadequacy or absence of profits in any year, the Company may declare dividend out of free reserves subject to the fulfillment of the following conditions:

- (a) The rate of dividend declared shall not exceed the average of the rates at which dividend was declared by the Company in the three years immediately preceding that year.
- (b) The total amount to be drawn from such accumulated profits shall not exceed one-tenth of the sum of its paid-up share capital and free reserves of the Company as appearing in the latest audited financial statement.
- (c) The amount so drawn shall first be utilized to set off the losses incurred in the financial year in which dividend is declared before any dividend in respect of equity shares is declared.
- (d) The balance of reserves after such withdrawal shall not fall below fifteen per cent of the Company's paid up share capital as appearing in the latest audited financial statement.
- (e) The Company shall not declare the dividend unless carried over previous losses and depreciation not provided in previous year or years are set off against profit of the Company of the current year.

Further, in the event the Company has incurred loss during the current financial year up to the end of the quarter immediately preceding the date of declaration of interim dividend, such interim dividend shall not be declared at a rate higher than the average dividends declared by the Company during the immediately preceding three financial years.

c) The Company shall not declare dividend in the following circumstances:

- There are reasonable grounds for believing that the Company is or would be, after a Dividend payment, unable to pay its liabilities or discharge its obligations as and when they become due;
- As a result of paying Dividends, the Company would be rendered insolvent or bankrupt;
- By operation of law for time being in force.

5.2 FINANCIAL PARAMETERS OR FACTORS DETERMINING DIVIDEND

In determining the Company's dividend payout, the Board of Directors considers a variety of factors or financial parameters, including:

1. Liquidity position of the Company
2. Need for further capital
3. Stability of earnings;
4. Legal requirements, taxation & other Government policies;
5. Dividend payout history;
6. Dividend type and its time of payment;
7. Any potential corporate actions like acquisitions etc;
8. Expansion of business;
9. Statutory conditions or restrictions as may be provided under applicable laws.

5.3 USAGE OF RETAINED EARNINGS

Company can use its retained earnings to gain competitive advantage. The competitive advantage can be achieved by increasing sales or by increasing profit margin. To improve sales or margins company shall either expand its capacity or modernize its facility to make it more productive. For both expansion and modernization's plans retained earnings can be utilized by the Company.

5.4 PERSONS ENTITLED TO RECEIVE DIVIDENDS

Save as provided in Section 27 of the Securities Contracts (Regulation) Act 1956, all persons whose name appears on the register of members as on the record date fixed by the Company for determining eligible shareholders for dividend are entitled to receive dividends.

5.5 PROCEDURE FOR PAYMENT OF DIVIDEND

- Company shall declare and disclose the dividend on per share basis only in terms of Regulation 43 of SEBI (Listing Obligations and Disclosure Requirements) Regulations 2015 read with Section 91 of Companies Act, 2013.

Annexure D**SECRETARIAL AUDIT REPORT****FOR THE FINANCIAL YEAR ENDED 31st MARCH 2020****(Form MR-3)**

[Pursuant to section 204(1)of the Companies Act,2013 and rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,

The Members,

VRL Logistics Limited

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by VRL Logistics Limited.(hereinafter called the company). Secretarial Audit was conducted in a manner that provided me/us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the VRL Logistics Limited's books, papers, minute books, forms and returns filed and other records maintained by the company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the company has, during the audit period covering the financial year ended on 31st March,2020 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by VRL Logistics Limited ("the Company") for the financial year ended on 31st March,2020 according to the provisions of:

- (i) The Companies Act, 2013(the Act)and the rules made thereunder;
- (ii) The Securities Contracts(Regulation) Act, 1956 ('SCRA')and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act,1999 and the rules and regulations made there under;
- (v) The Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act,1992 ('SEBI Act') viz.:

- (c) The Securities and Exchange Board of India (Issue and Listing of Non-Convertible Redeemable Preference Shares) Regulations, 2013
- (d) The Securities and Exchange Board of India(Buy-Back of Securities) Regulations,1998; and

-
- (e) The Securities and Exchange Board of India(Issue of Capital and Disclosure Requirements) Regulations,2009(SEBI ICDR Regulations,up to September 10,2018
And SEBI ICDR Regulations,2018 w.e.f September 11,2018
- (vi) Other laws applicable as per the representations made by the management;
- Carriage by Road Act 2007,
Motor Vehicles Act, 1988
The Aircraft Act, 1934
The Carriage by Air Act 1972
The Electricity Act, 2003
The Petroleum Act 1934
The Food Safety and Standards Act 2006
Consumer Protection Act 1986

I have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards issued by The Institute of Company Secretaries of India.
(ii) The Listing Agreements entered into by the Company with Bombay Stock Exchange and National Stock Exchange.

During the period under review, as per the explanations and representations received from the Management, the Company has generally complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above except the following :-

(a) The common Chairman of Audit/ nomination and remuneration/stake holders committee was not present in the AGM held on 10/08/2019, as per the requirements of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. However , due to extra ordinary situation caused by flood he was granted leave of absence.

I further report that based on the information provided and representation made by the Company and on the basis of Compliance report taken on record by the Board, in my opinion adequate systems and processes exist in the Company to monitor and ensure Compliance with other laws applicable, rules, regulations and guidelines

I further report that The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were in general, carried out in compliance with the provisions of the Act.

In general, adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance and wherever shorter notices were given, the same was given with the consent of all the Directors and such meeting were held with the participation of Independent Director/s and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

As per the Minutes of the Meetings recorded, the decisions of the Board were unanimous and no dissenting views have been recorded.

I further report that as per the information provided, there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with other applicable laws, rules, regulations and guidelines.

I further report that during the audit period,

(a)There are some continuing civil/criminal proceedings pending with appropriate authorities/courts and the same is not likely to have a major bearing on the Affairs of the Company.

* Physical verification of statutory records could not be done due to Covid-19.

ANNEXURE 'G'

Conservation of Energy, technology absorption, foreign exchange earnings and outgo pursuant to the provisions of section 134(3)(m) of the Companies Act, 2013 read with the Companies (Accounts) Rules, 2014

A) CONSERVATION OF ENERGY

I) Steps taken by the Company or impact on conservation of energy

1. We have added 6 new electric forklifts at various transshipment hubs across the country.
2. LED lighting is being predominantly used across a majority of the offices of the Company. Also, preference is being given for the procurement of energy efficient equipment for new equipment additions as also for replacement of existing equipments.
3. Instead using UPS and battery for operation of electronic equipment at branches, we have developed an in-house DC converter device for usage on these equipments. The same has been regularized at our branches across the country.
4. Addition of 10 electric autos for local deliveries for fuel conservation.

II) The steps taken by the Company for utilizing alternate sources of Energy

The Company had pioneered the usage of bio-diesel on its fleet of trucks and buses. The same had given good results and has also resulted in cost savings. Efforts and in-house studies are on to ascertain ways of overcoming the shortcomings of this alternative fuel for an all-year-round operation. Continued availability of bio-diesel supply also emerged as a big challenge and efforts are on to identify reliable suppliers for the same.

Procurement of Bio-fuel was to the tune of 28.03% of the total fuel quantity in FY20. Bio-fuel quantity increased by 8.58% in FY20, as compared to 19.45% of total quantity in FY19.

III) The capital investment energy conservation equipment

On an average, a sum of around ₹70,000 per KW is spent on the Solar branch lighting equipment which is being presently installed across select branch offices of the Company.

Also sum of around ₹ 1.47 lakhs was incurred for the procurement of each electric auto.

B) TECHNOLOGY ABSORPTION

ANNEXURE 'H'
A. Statement of particulars of Employees pursuant to Rule 5 (1) Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014
1. The ratio of the remuneration of each Director to the median remuneration of the employee for the financial year

Sl. No.	Name	Designation	Ratio of Remuneration
1	Dr. Vijay Sankeshwar	Chairman & Managing Director	267:1
2	Mr. Anand Sankeshwar	Managing Director	203:1
3	Mr. K.N.Umesh	Executive Director	91:1
4	Mr. L. R. Bhat	Executive Director	89:1

Notes:

- None of the other directors are paid any remuneration other than sitting fees. As such their names are not included in the above table.
- Considering the industry in which the Company operates, it is pertinent to note that a majority of the employees of the Company comprise of Drivers, Cleaners, Mechanics and Hamals whose salary would be as per the industry standard. Accordingly, employees drawing performance based salary such as drivers/hamalsetc; are paid remuneration that is split into employee cost (based on applicable minimum wages in tune with the internal policies of the Company) and vehicle operation cost and costs related to material handling respectively and these costs form part of the Operational Expenses in the books of accounts.
- Computation of median as detailed above is arrived at also considering the salary drawn by said drivers, cleaner, mechanics and hamals.
- Computation of the said median salary is purely based on the expenditure recognized under employee cost to the Company which excludes other allowances and incentives drawn by these employees which are accounted under Operating Expenses as indicated above.

2. The percentage increase in remuneration of each Director, CFO, CS in the financial year

Sl. No.	Name	Designation	Increase in %

MANAGEMENT DISCUSSION AND ANALYSIS

1. INDUSTRY STRUCTURE AND DEVELOPMENTS

Road transport in India is dominated by the Full-Truck-Load (FTL) segment, which makes up around 88% of the road industry size, due to low entry barriers. While the FTL business is commoditised, the road express business (2%) requires setting up of a strong network to get adequate tonnage and be profitable. Less than truck load (LTL) is about 10% of the road transportation sector and it is more profitable than FTL. India's USD 100 bn road logistics market has clocked 9-10% CAGR over the past decade. It is believed that with the increased economic activity, current & future mix of rail and roads in surface transport, supported by positive regulatory changes and infrastructure investments will lead to the sector posting CAGR of around 10% to around USD 190 bn by FY25. A key trend that one can observe in the past 12-18 months, is that post GST, there has been a beginning of a shift from FTL to LTL business. This is mainly due to the customers demanding quicker and smaller truck loads directly to distributors rather than multiple warehouses that are situated in every state.

The road transportation sector is highly fragmented with the presence of a large number of unorganised small truck operators. It is estimated that over 70% of truck owners in India have a fleet size of between one and five trucks. Truck operators are heavily dependent on intermediaries such as brokers and booking agents. The handlers hold a dominant position in pricing freight rates, shrinking margins of truck operators. Consequently, pure road transportation or trucking lacks pricing power and has low ability to pass on rising fuel and other costs. Larger fleet owners are obviously much better placed due to a large client base which they use to optimise utilisation and achieve better margins. On per kg basis, LTL has relatively higher margin compared to FTL as the customer has relatively low bargaining power. Established players who have large fleets of about 1,000 plus trucks are able to venture into the high margin LTL business.

Logistics in India is no longer a business process, it has become an integral part of the value chain operations.

The domestic logistics sector is set to grow at 8-10 per cent over the medium term with the outlook remaining largely stable, as per ratings agency ICRA. Union Budget 2020 was considered positive to raise transportation conditions and logistics infrastructure.

COVID-19 HAS BEEN A DISRUPTIVE FORCE ACROSS EVERY INDUSTRY

However, India is facing several challenges amid its own country-wide lockdown: labour shortages, cargo capacity challenges, a manufacturing slowdown, order delays and stuck shipments, and demand and supply shocks. India's real gross domestic product (GDP) is at its lowest in 6 years because of the COVID-19 standstill adversely affecting consumption and investment in the Indian economy. Even as the government has announced some relief in the lockdown, inland logistics companies' volume is likely to fall 10-15 per cent in the financial year 2020-21 as the consumption demand could take a longer time for recovery, according to India Ratings. It is expected that operational recovery for logistics players will be gradual and prolonged over 2020-21.

The manufacturing halt has reduced demand for logistics services, which likely will result in downward pressure on prices across warehousing, freight, and logistics. With countries around the world imposing lockdowns, minimal export-import movements have amplified the crisis in the logistics space.

Restriction of air travel and international flights globally has contributed to the slowdown in the movement of goods, and India's lockdown brought first- and last-mile transportation and intermodal movement of goods to a standstill.

Despite logistics being categorised as essential services, we expect volumes to decline, given the first-mile (cargo evacuation from port) and the last-mile (supply-chain between inland container depots to company warehouses) challenges. Severe shortage of labour and drivers along with health safety environment (HSE) checks at ports for foreign vessels may lead to congestion at ports/depots, which may impact their efficiencies," it said.

Post lockdown, consumer sentiment will not be very positive and they may not spend out of the way for non-essential goods. Inventory of non-essential products at retail shelves and supply chain channels will be same as of pre-lockdown period. Moreover, there may not be a festive season leading to surge in sudden demand of consumer electronics, white goods and apparel or lifestyle products.

On the other hand, we foresee shortage of drivers and handlers after lockdown. Shortage of drivers will reduce the availability of available trucks for loading and such scenario can create a gap in demand and supply of trucks. So post lockdown, without any real surge in demand, shortage of trucks and surge in freight rates are expected.

In case of essential goods (grocery/FMCG products) off take from retail may slightly go down for some time, as end consumers have a tendency of keeping high inventory at time of crisis. Such consumer behaviour is visible in current crisis, which means immediately after lockdown there will not be huge pull from customers instead the demand for inventory replenishment at retail will prevail.

The pandemic also presents the possibility of invocation of force majeure clause which may increase contingent liability risk. In an economic downturn, logistics players not only face a lower demand for their services but also are exposed to the risk of a fall in market tariffs/rentals. Even in cases where revenues are backed by medium- to long-term contracts, unprecedented events such as a global pandemic, often allows the counterparty to invoke force majeure provisions. The likelihood of such an event and its impact varies significantly across businesses depending on the credit profile of their counterparty, performance

of the industry and the nature of services provided by them.

As the overall level of economic activity remains subdued, The overall demand for freight transportation services is expected to contract in 2020-21. Also, the impact on profitability and cash flows is uncertain due to lack of clarity over realisations, cost reduction initiatives taken by players, and government support. Meanwhile, new CAPEX and infra projects may be postponed due to weak liquidity and poor economic scenario. This will impact negatively on road transportation sector.

The trucking industry in India will be impacted by Covid-19 as stated above but is expected to grow much faster. The truckers who have bought trucks with 50-100 percent institutional finance will see a tough time and need to maintain 90 percent capacity utilisation for upcoming EMIs, Insurance premiums & Permit with same freight cost despite high diesel cost. This is due to disturbed production-consumption cycle with only 30 percent of trucks operating with cut-throat competition for loads. Increasing Demand of e-commerce products, growing Reefer trucks, technical innovations such as E vehicles, Fleet Management Software and more are disrupting the competition space.

However proactive initiatives under taken by government may help in reversing the existing trend.

1. Increased government spending

The government under the budget of 2020-2021 has allocated ₹ 170,000 crore for transportation which is 8 percent higher than the budgetary allocation of 2019-2020. The National Infrastructure Pipeline for 2019-2025 pegged the projected capital expenditure for Transportation (covering roads, railways, ports and airports) at about ₹ 35.7 lakh crore. Various efforts include Bhratamala Pariyojana and the Sagarmala Project and Bangalore suburban transport project.

2. High seasonal demand variation

The demand for trucking in India is the highest during festive months (Sept, Oct, Nov, and Dec) and harvesting months (February to April) where the occupancy of trucks can rise by 30-40 percent along with freight fluctuations of 6-7 percent in comparison to normal freight rates prevailing in the trucking Industry.

3. Change in government regulations

The government is constantly changing the regulations associated with trucking industry such as restriction of trucks above the age of 15 years to phase out older & polluting vehicles from the country. GST has shifted all manual transactions to digital mode with e-way bills and Fastags ensuring more transparency into the system. The government has even revised Axle norms to increase load capacity that has increased the load capacity of the Individual Vehicles and also overall carrying capacity of the Vehicles has been improved.

India Logistics Sector has witnessed a robust CAGR with the highest share to freight forwarding market followed by warehousing, courier parcel and express market and VAS Market. Road freight is the dominant mode with transportation to domestic flow corridors and international neighbouring countries also. Many real estate developers such as Indospace, Logos India, ESR and many more are making constant investments in the warehousing market in Gurgaon, Chennai and Mumbai. E-commerce sector is becoming extremely popular with the introduction of online payments such as Amazon Pay, Paytm, Gpay and new popular delivery apps.

Small fleet owners (SFO) dominated industry (70 percent of all fleet) operating at a margin of 8-12 percent and average transaction days of 12-15 per month. Indian road freight market has witnessed an average CAGR during 2014-19 due to revision in BS VI norms, scrappage policy, GST and new axle norms from the government with a rise in average highway construction of roads.

The developments of Bhratamala Pariyojana and the Sagarmala projects and the Eastern and Western Dedicated Freight Corridors, developments of ports along with Public-Private partnership Projects has stimulated the growth in the market. On the front of assessing seasonality fluctuations in demand, freight rates usually high during the festive season in September-December.

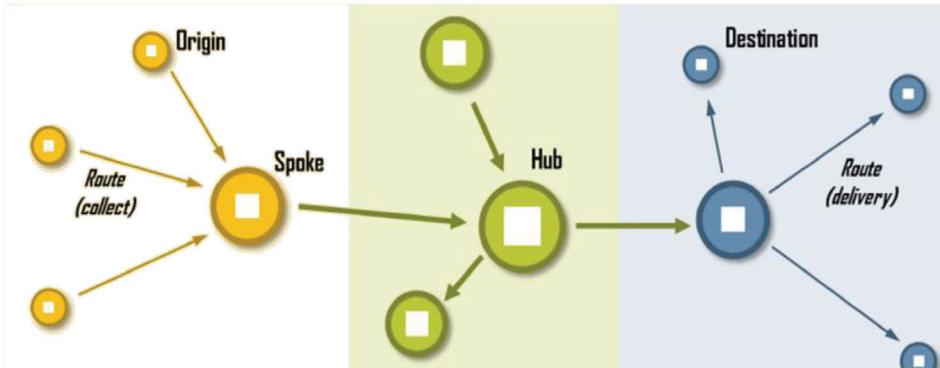

Technology is changing the landscape of road transport in India. Various startups are using more intensive technology to provide real-time tracking of trucks, increased transparency and accuracy with regard to delivery times and more efficient capacity utilisation. Due to tech-enabled scheduling of loads, the use of middlemen is reducing and resulting in higher efficiency. We can see the apparent benefits of new tech-based business models; however, it poses a threat to established road transport companies and forces them to come up with innovative solutions to hold their market share.

2. SWOT ANALYSIS

STRENGTHS

VRL is a well-established brand in the country when it comes to surface transportation and the industry leader in the parcel transportation space. It is also the leading name in the private bus operations industry and with a track record of over four decades, VRL has large size and scale of operations and operates on a pan India basis. We maintain our stand that your Company also occupies the leadership position in the country for Less than Truck Load (LTL) movement of goods and it is only the absence of validated industry data that prevents us from acclaiming this fact. Apart from the movement of General Parcel, the surface transportation operations also cover other services such as Full Truck Load (FTL), Priority Cargo Services, Car carrying as also Air Cargo to a limited extent.

The two major advantages that your Company enjoys over its competition are its well established wide network of branches and franchisees and its owned fleet of commercial vehicles with dedicated in-house vehicle body designing and vehicle maintenance facilities to cater to the parcel transportation. The Company presently operates across 22 States and 5 Union Territories in India and its reach is unmatched for the offering of LTL goods transportation services. Your Company is also one of the largest fleet owner of commercial vehicles in the Country and the same enables the Company to set unparalleled standards in the movement of LTL cargo in India in terms of service levels and safety of consignments.

Consolidation

Aggregation & Segregation

Fragmentation

The above figure depicts the 'Hub and Spoke' consignment delivery model followed by the Company. The policy at VRL is to own its vehicles for offering LTL services as also own significant infrastructure facilities comprising of warehouses and maintenance facilities. We also have a dedicated in-house IT setup which is a significant strength of your Company and the same has rendered a lot of control, cost savings and business flexibility over the years. The entire IT infrastructure of the Company is operated internally and the in-house developed ERP enables the Company to seamlessly operate on an online real time basis across all its business verticals as also integration with franchisees and select customers. Your Company also has built up capability to maintain its owned vehicle fleet internally and the cost savings arising out of economies of scale by way of tie-ups with fuel suppliers, vehicle manufacturers for supply of spare parts, tyres etc. as well as ongoing in-house R&D in this domain have enabled the Company to utilize its vehicles for a significantly longer term vis-à-vis the industry as also at significantly lesser maintenance costs.

Your Company also benefits from in-house research and development with a capability to try its findings and experiment with newer products and technologies on its owned vehicles. Several of its key findings have today been accepted and implemented even by vehicle manufacturers.

Your Company also benefits from the recent revision in Safe Axle Weights for Goods Transport vehicles by the Transport Division of Ministry of Road Transport and Highways which permits the carrying of higher weight on a Goods Transport vehicle thereby increasing its payload. In combination with own vehicle body designing facility and also with combination of multiple types of commodities handling such as heavy and bulk consignments inside goods carriages, the goods carriages can be utilized at higher capacity as compared to the earlier periods.

Your Company also has a very well diversified customer base. During FY 2019-20, the Company's largest customer and the top 10 customers put together contributed only 1% and 4% of the revenues of the Goods Transport business respectively. This has ensured that the Company has no dependencies on any customers or product categories. Similarly, there are no geographical or product related dependencies for the business which better insulates your Company vis-à-vis competition.

WEAKNESSES, RISKS AND CONCERNs

The surface transport industry suffers from an acute driver shortage issue and the said problem also affects your Company. The management opines that this is the single most important factor that affects all the transporters across the country. Your Company is however relatively better placed in this regard. VRL offers best in class salaries and emoluments including incentives to its drivers which help retention of this cadre. The Company also has enlisted its drivers on its payrolls and extends all statutory benefits such as PF, ESI, etc. to its drivers. The Company offers a good work environment as well and also takes care of their skill development by conducting routine training programs as well as awareness camps for its drivers. Your Company also conducts frequent health checkup and health camps for the drivers so as to make them more health conscious. Shortages however still remain and your Company is striving to further encourage more and more individuals to take up driving profession by visiting potential villages and towns and trying to remove the stigma being associated with the driving profession. The management also propagates at several forums the necessity of a joint industry effort to overcome this problem which is only expected to become more challenging in the days to come.

Lack of owned infrastructure at key centers is another present day weakness in the management's opinion. The Company has established owned transshipment hubs at key locations like Hubballi, Mumbai, Mangalore, Mysore, Bhilwara, Vijayapura, Gangavati, Surat and Davangere. Long term leases have also been entered into at key locations such as Chennai, Delhi,

Hyderabad, Bengaluru, Pune, Kolkata, etc. Owned infrastructure enables the company to set up good quality maintenance facilities as also better infrastructure for goods movement and material handling. The ownership of premises at such key business locations provides the Company with a lot of flexibility in conducting business operations and the same lead to considerable cost savings and also enables the Company to scale up its service levels. Setting up such owned infrastructure would however entail significant investments which in turn affect the return ratios and the management would need to balance the two so as to optimize stakeholder value as well as to cater to business growth for future. Your Company would consider gradually expanding its owned infrastructure at such key locations in the years to come.

Covid-19 is being harped upon by one and all as one of the biggest threats to every business worldwide and the same is true, albeit only in the near short and medium term. Human beings have lived through several such catastrophes as also pandemics and the facilities, technology as also infrastructure would place today's world in a much better position to cope up and overcome the aftereffects of this pandemic in the days to come. One of the positives emanating out of this occurrence is that people would be more aware and sensitive to their individual health and well-being and this would ensure that the human resources in general would contribute more to their respective organizations in a much better manner in the days to come.

OPPORTUNITY

Financial year 2020-21 is bound to be a one-time blip for all major business houses of the country and your Company would not be an exception to this. Freight volumes Operations however increasing and are bound to surpass pre-Covid-19 days in the near short term. This is so because being organized enables your Company to better handle the ongoing scenario as also many of the unorganized smaller operators have already shut shop as they were unable to cope up with the financial stress the pandemic presented. We in fact remain quite optimistic of the possibility of relatively higher volumes coming your Company's fold in the days to come.

Your Company expected to benefit out of the GST implementation. The same however could not happen due to several causes. The existing provisions of E-way Bill and GST Law needs to be further strengthened and monitoring of the compliances level needsto be improved further to mitigate the transactions with non-compliancesin the existing system. The Covid-19 pandemic did bring in a lot of financial burden to small fleet owners and many of them have closed their business and resuming normal service in the near future by these operators seems difficult. This is bound to ensure that the freight business being handled by them would be shifted to organized transporters like us. We do expect to now see some actual volume growth which was expected at the initial stage of GST implementation. We maintain that there would a marked shift in the operating model of surface transporters in the country and the hub-and-spoke model would find a lot of following in the Indian context. Your Company has been operating on a hub-and-spoke model all along and its experience and expertise in the movement of LTL parcels is unmatched which has enabled it to be at the very helm of this business in India.

Your Company also has successfully implemented processes within the operations to ensure full compliance with the GST and E-way bill requirements. With in-house IT, the Company is also expected to benefit from monetizing this capability to smaller vendors in the industry.

Your Company also has successfully obtained the requisite approvals from the respective RTOs and is now well poised to reap the benefits under the recent revision in Safe Axle Weights for Goods Transport vehicles by the Transport Division of Ministry of Road Transport and Highways which permits the carrying of higher weight on a Goods Transport vehicle. As of date, majority of the high capacity tonnage vehicles have been approved thereunder and these vehicles will be effectively used to carry the additional load as compared to the earlier periods. The same is expected to benefit your Company in the coming days.

THREAT

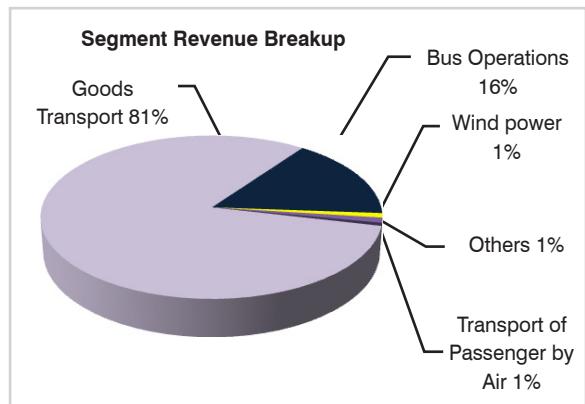

Fluctuations in fuel prices resulting from diesel de-regulation, lorry hire charges payable to third party vehicles and input costs especially those related to tolls as also others like rent, salary etc. have a significant bearing on the Company's profitability margins. These represent a significant portion of the operating costs and any inability to pass on the same in entirety affects profit margins adversely. In particular, the cost of fuel has increased in the recent years regularly and fluctuates significantly due to various factors which are beyond our control. In the coming days, the same would be a daily phenomenon. Historically, due to low customer dependencies, the Company has been in a position to pass on predominantly or at times even completely such increases to customers through periodic increase in freight rates or bus ticket prices. However, the ever present volatility represents a considerable threat to our result of operations.

The Company's operations could also be affected owing to development of newer policies by the different State Governments of the country. To quote an example, several states / cities have prohibited the entry of commercial diesel operated vehicles that are beyond a certain age. This necessitates the shifting of older vehicles and deploying these over other permitted routes which entails a cost. Also, one can never be certain as to when similar decisions would be implemented across other States and major cities which could affect us adversely.

Also, protectionism policies in respect of passenger buses being considered by a few states could also affect the passenger travel business. We however have adequate strength in our business model to overcome any such developments albeit the same could have a bearing on associated costs. Needless to say, the inherent business model of the Company ensures that your Company is much better placed as against its competition in this regard.

The Company's business operations are totally dependent on the road network in India. There are various factors that affect the road network such as political unrest, bad weather conditions, natural calamities, regional disturbances or even third party negligence that can affect the condition of vehicles and cargo / passengers. Even though the Company undertakes various measures to avoid or mitigate such factors to the extent possible, some of these have the potential of causing extensive impact on operations and assets.

3. SEGMENT-WISE PERFORMANCE

The Overall revenues of the company Company increased by 0.54% during the current year in comparison with the earlier year.

Goods transportation revenues recorded a growth of 2.29%. The said growth is the result of a growth in the freight volumes.

The revenues of Bus Operations division recorded a decrease of 9.63% due to fleet reduction. Despite fleet reduction, the realization per passenger and occupancy rates combination resulted in better yield vis-à-vis the earlier fiscal.

The Wind Power division of the Company recorded revenues of ₹ 1864.74 lakhs, a decrease of 15.57% due to reduction in installed capacity

The Transport of Passengers by Air divisions recorded revenues of ₹ 1982.34 lakhs as against corresponding revenues of ₹ 1072.22 lakhs for the previous year.

4. OUTLOOK

With the GST and related E-waybill implementation organized players will stand to benefit and the smaller and unorganized players need to step up and meet the compliance requirements which appears very difficult given the present day scenario which is only further aggravated by the Covid-19 Pandemic. We expect that further stabilization of the GST regime will usher in a new era for our industry. Similarly we now expect better utilization and revenue realization per vehicle for our Goods Transport Vehicles in view of the recent revision in Safe Axle Weights for Goods Transport vehicles which permits the carrying of higher weight on a Goods Transport vehicle thereby increasing its payload.

On the passenger bus operations front, we expect that the legislative changes will gradually make way for organized players to sustain and the present day unhealthy competition to wane in the coming days.

The "asset ownership" model operated by the Company coupled with its nearly 20000 employee base presents significant monthly Fixed costs which need to be absorbed by the operating revenues. The revenues are meagre for the months of April and May and June is expected to be no different given that the Brick and Mortar businesses are labour dependent and the present mass labour movement poses production challenges for our clients. Thereby the management of the Company expects the results for the first quarter of FY 2020-21 to be discouraging. We expect the Company to report significant financial loss for this period.

The inherent strength in our business model ensures that the Company is not dependent on any particular customer or industry for its revenues. During FY 2019-20, the Company's largest customer and the top 10 customers put together contributed only 1% and 4% of the revenues of the Goods Transport business respectively. In these difficult time, the available drivers and vehicles are being selectively deployed for Full Truck Loads and Parcels depending on return load and other ground level position as the situation warrants. We are transacting freight business coming our way and our entire team has existing customers as also potential customers for getting business.

The Company has not availed the option to postpone the repayment of the principal amounts due on its outstanding loans. The Company has honoured its debt service obligations in a timely manner and would continue to do so in the days to come. This itself is demonstrative of the faith and positive outlook that your management has on the Company.

Going ahead, we believe that we need to live through with the Corona virus and find ways and means to overcome the challenges it presents. Historically, man has overcome every such pandemic and the adverse economic effects of these are at best temporary. Our Company is financially strong and well placed to overcome this temporary setback. From the second quarter onwards, we expect the recoupment of losses. We expect the business volumes to start picking up significantly from August 2020 onwards and the restoration of freight volume normalcy by the last quarter of this fiscal.

Any quantification of financial results as of now would be at best guesswork and we do not wish to quantify these as the ground realities are dynamic and would render any estimation 'off-mark' in hindsight. Financial year 2020-21 is indeed an aberration in the history of this Company and a one-off year of abnormality. We expect the resumption of healthy financial growth from the next fiscal onwards.

5. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has an Internal Control System, commensurate with the size, scale and the nature of its operations. The Internal Control function emanates at the Board level and its scope and authority of the Internal Audit function is well defined. To maintain objectivity and independence, the Internal Audit function reports to the Chairman of the Audit Committee of the Board & to the

executive Chairman and the Managing Director. The Internal Audit Department monitors and evaluates the efficacy and adequacy of internal control system in the Company, its compliance with operating systems, accounting procedures and policies across the Company. Based on the report of internal audit function, process owners undertake corrective action in their respective areas and thereby strengthen the controls. Significant audit observations and recommendations along with corrective actions thereon are presented to the Audit Committee of the Board.

As regards the operation of internal controls, majority of these have been inbuilt in the internal procedures established by the organization which are also documented in the Procedure Manual. The said manual describes in details the methodology to be adopted right from transacting bookings, effecting consignment deliveries, etc. and also describes the practices to be followed for the smooth operation of business. Inspection teams are formed at the head office level as well as at the transshipment level and cover the entire branch network of the Company periodically for exhaustive inspection for adherence to the set procedure. Deviation from the laid down procedure is escalated to the Functional heads as also directly to the Executive Directors.

The Company had laid down guidelines, policies, procedures and structure to enable implementation of appropriate internal financial controls across the company. These control processes enable and ensure the orderly and efficient conduct of company's business, including safeguarding of assets, prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and timely preparation & disclosure of financial statements. There are control processes both on manual and IT applications including ERP applications, wherein the transactions were approved and recorded. Review and control mechanisms are built in to ensure that such control systems are adequate and operating effectively.

Other control processes are IT driven and the in-house information technology capabilities ensure that due flexibility is available in the system to further strengthen controls as the case may be. Your management appreciates the need to remain efficient in their workings and recognized their responsibility in establishing controls as also effectively implementing them and monitoring their effectiveness on a periodic basis.

6. DISCUSSION ON FINANCIAL PERFORMANCE W.R.T OPERATIONAL PERFORMANCE

(₹ in lakhs)

Particulars	Year Ended 31st March, 2020	Year Ended 31st March, 2019
Total Income	2,12,885.65	2,11,746.82
Profit Before Finance Costs and Depreciation	30,858.48	25,191.92
Finance Costs	3,673.67	1,086.37
Depreciation and Amortisation of expenses	16,753.43	10,058.09
Profit Before Tax	10,431.68	14,047.46
Tax Expense	1,420.19	4,855.85
Profit for the Year(exclusive of other comprehensive income)	9,011.49	9,191.61

The revenue from operations increased by 0.43% from ₹ 2,10,954.40 lacs to ₹ 2,11,853.97 lacs. Including other income the growth rate increased by 0.54% from ₹ 2,11,746.82 lacs to ₹ 2,12,885.65 lacs.

EBITDA of the company for FY 2019-20 was ₹ 30858.48 lacs. On account of Ind AS-116 the EBITDA of the Company increased by ₹ 8393.53 lakhs. The Company has adopted Ind AS 116, 'Leases', effective 1 April 2019, using modified retrospective approach, wherein comparative information are not required to be restated. The details of the same are as below:

IndAS116-Leases

- Effective 1st April 2019 the Company adopted Ind AS 116 , Ind AS 116 which requires a lessee to recognize right of use (assets and lease liabilities for all leases with a term of more than twelve months) unless the underlying asset is of a low value
- Ind AS 116 has been applied using modified retrospective approach wherein the cumulative effect is recognised at the date of initial application i.e., as at 1st April 2019. The lease liability is measured at the present value of the balance lease payments, discounted using the lessee's incremental borrowing rate at the date of such initial application. The ROU assets have been recognized in a manner, using the aforesaid borrowing rate, as if the Standard had been applied since the lease commencement date, reduced by the amortization upto the date of initial application.

The adoption of this new standard resulted in measurement of lease liabilities at ₹ 27047 lakhs and recognition of ROU assets at ₹ 24624 lakhs by adjusting retained earnings to the extent of ₹ 1911 lakhs (net of tax), as at transition date, including adjustments for prepaid rent balances, lease equalization reserve, etc. as at such transition date.

- As a part of the Lease accounting, further, the Company recognized interest expense of ₹ 2521 lakhs on lease liability and depreciation of ₹ 6441 lakhs on ROU assets, for the current year as against rent expense of ₹ 8393 lakhs that would have been recognized had Ind AS 116 not been adopted, resulting in profit before tax for the year ended 31 March 2020 being lower by ₹ 569 lakhs.

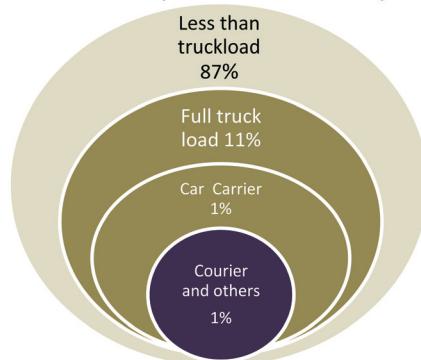

Profitability

- As a result of the above, EBITDA of the company increased to ₹ 30858.48 lacs. On account of Ind AS-116 the EBITDA of the Company increased by a sum of ₹ 8393.53 lakhs.
- The EBIT of the company has decreased by 6.80% from ₹ 15133.83 lacs to ₹ 14105.05 lacs. Owing to the Lease adjustment as detailed above, depreciation increased by 66.57% from ₹ 10058.09 lacs to ₹ 16753.43 lacs.
- The PBT of the company has decreased by 25.74% from ₹ 14047.46 lacs to ₹ 10431.68 lacs. In percentage terms, this margin decreased by 1.73% from 6.63% to 4.90% while Interest expense increased from ₹ 1,086.37 lacs to ₹ 3,673.37 lacs. On account of Ind AS-116 the PBT of the Company decreased by ₹ 568.76 lacs and in percentage to Revenue by 0.27%.
- The PAT of the company has decreased by 1.96% from ₹ 9191.61 lacs to ₹ 9011.49 lacs. Margins decreased by 0.11% from 4.34% to 4.23%. On account of Ind AS-116 the PAT of the Company is decreased by ₹ 425.61 lacs (net of tax) and in percentage to Revenue by 0.21%.

Goods Transport (GT)

GT revenue increased by 2.29% from ₹ 168601.88 lacs to ₹ 172469.20 lacs. Tonnage increased by 6.18%. The growth in tonnage was impacted by the lockdown towards the end of March 2020, given that the month of March historically has been a productive month for the entire logistics industry. As a result, tonnage which grew by 8% upto 9MFY20 was restricted to 6.18% in FY20 due to restricted movements in Q420.

Goods Transport Business breakup

Note: Percent to Total Goods Transport Business

GT EBITDA of the company has increased by 12.11% from ₹ 20521.12 lacs to ₹ 23006.01 lacs in absolute terms while margins increased by 1.17% from 12.17% to 13.34%. On account of Ind AS-116 the EBITDA of GT segment is increased by ₹ 7666.64 lakhs and in percentage to revenue by 4.45%. EBITDA margins were also impacted by the fixed costs that the company incurred during lockdown, such as Rent, Salary, Vehicle taxes, enroute expenses and Compensation charges paid to drivers and labour. All these expenses were incurred in spite of vehicles being stationary during the lockdown period. Apart from this, procurement of fuel also increased, as company operated its own vehicles and cut down on dependence on hired vehicles. Fuel expenses as a percent to total GT income increased by 0.17%. This was compensated by decrease in Lorry hire expenses by 1.84% as a percent of total GT income. Toll expenses also increased by 0.56% as a percentage of total GT income, due to reduction in cash back for usage of Fast tags from 5% to 2.5% and also due to higher distance covered by company vehicles. Other Expenses that impacted the margins besides fuel costs were Repairs & Maintenance, Insurance charges, Hamali charges and Tyre costs.

Passenger Travel (PT)

PT revenue decreased by 9.63% from ₹ 38032.74 lacs to ₹ 34371.06 lacs. The decrease in revenue is due to decrease in number of buses from 381 to 337, leading to decrease in the number of passengers travelled by 14.4% and decrease in number of trips by 10.2%. Realisation per passenger increased by 5.76%. Also, during the latter half of March 2020 the buses were stationary and did not yield any revenues as such.

PT EBITDA of the company increased from ₹ 4136.27 lacs in FY19 to ₹ 4863.98 lacs in FY20. On account of Ind AS-116 the EBITDA is increased by ₹ 726.89 lacs in FY20. EBITDA Margins increased by 3.28% from 10.88% in FY19 to 14.15% in FY20.

In spite of decrease in the number of buses, EBITDA of PT increased, on account of increase in realisation per passenger by 5.76% and also due to route optimization leading to healthy margins. Such higher realization compensated the adverse

movement in other operational costs as a percent of PT income such as Fuel costs, Toll charges, Insurance and Taxes, Employee costs, etc.

Wind power

Sale of Power decreased by 15.57% from ₹ 2208.51 lacs to ₹ 1864.74 lacs. There were local disturbances at the Wind Power site including disruption of 33 KV transmission lines. Such disruption was during the peak season. The matter has been taken up with Suzlon and the Company expect to be compensated for such losses in the ensuing fiscal. Also one of the Wind Mill was defunct due to mechanical failure thereby reducing the installed capacity by 1.25 MW.

Transport of Passengers by Air

Revenue from this segment increased by 84.88% from ₹ 1072.22 lacs in FY19 to ₹ 1982.34 lacs in FY20 due to increase in revenue flights during the year.

Cost saving measures

During the year we have initiated few key cost saving measures as under:

- Usage of Bio-fuel (28.03% of total quantity in FY20) and procurement of fuel directly from refineries, Redemption benefits have helped in curtailing Fuel expenses.
- The Company benefitted from revision in axle load norms for the Goods Transport vehicles. Accordingly as of today majority of the vehicles have been certified and approved by the respective RTO Authorities to carry the additional load as permitted by the Government. On account of this the utilization levels of the existing vehicles have been improved and also realization per trip is increased as compared to the earlier period.
- Introduction of Fast tags on all our vehicles resulted into lower advance amounts for trip expenses as also resulted in our availing a considerable discount on the toll costs
- A conscious branch profitability study was initiated and measures were taken to close 81 non performing GT branches, while adding 49 new GT branches. This not only helped in our saving costs, but also resulted in consolidation of operations without affecting Goods Transport business turnover.
- We also laid due emphasis on prioritizing the deployment of our own fleet thereby reducing dependence on outside vehicles. During the year there was a significant decrease in the distance covered by outside vehicles vis-à-vis the earlier year. To ensure quality of service we have also commenced GPS tracking of outside vehicles.

Significant changes to key financial Ratios:

Barring Debt Equity ratio, Current Ratio and Interest Coverage ratio there was no significant change to the other key financial ratios, i.e. Debtors Turnover, Inventory Turnover, Operating Profit margin and the Net profit margin.

The Debt Equity ratio was 0.2 as of March 31, 2019 and the same increased to 0.3 as of March 31, 2020. The same is the result of meeting capex by raising debt. During the year the Company raised loans, predominantly to finance the purchase of Goods Transportation Vehicles.

The Current ratio of the Company decreased from 1.38 as of March 31, 2019 to 0.69 as of March 31, 2020. This is due to lease liability of ₹ 8389.82 lakhs

Return on Net Worth

The Return on net worth increased from 14.22% for the financial year 2018-19 to 14.28% for the financial year 2019-20

7. MATERIAL DEVELOPMENTS IN HUMAN RESOURCES / INDUSTRIAL RELATIONS FRONT – EMPLOYEE DATA

The total employee strength of the Company as of 31.03.2020 was 19698. Given the nature of operations, a significant portion of the said employee strength comprises of drivers, cleaners, garage mechanics and other unskilled employees.

Despite the large number of employees as also considering the widespread geographical operation of the Company, your management feels proud to state that the employer – employee relations remained extremely cordial throughout the year. There were no instances of strikes, lockouts or any other action on part of the employees that affected the functioning of the Company. It is noteworthy that there is no Employee Union / Trade Union / Union within the organization.

Note:

Our management is of the opinion that the mere absence of a documented policy alone is no reason to assume that our business is not conscious as to its environmental obligations. We have diversified more than a decade ago into Wind Power generation and ours was one of the very few projects which was accepted by the Global body under United Nations Framework Convention on Climate Change (UNFCCC). We had entered into a long term contract with the Asian Development Bank (ADB) which purchased all our carbon credits (CERs) in entirety. We are pioneers in the Surface Transport industry to consume bio-diesel as an alternative and Green Fuel and during the financial year under this report, the consumption of the same was to the tune of 28.03% of our total consumption which amply demonstrates our commitment to Greenhouse Gas reduction.

We wish to submit that we are in full compliance with all the environmental laws applicable to us. In fact, our waste treatment and disposal as also our rain water harvesting efforts at Hubballi have resulted in our increasing the water table at the location where our centralized vehicle maintenance facility is located. We are one of the few organized transporters who have also consciously ensured that our bigger transhipment yards are provided with battery operated forklifts instead of diesel based ones. This ensures better well-being of our workforce situated there as also reduces pollution.

We have also commenced the commercial application of electric vehicles for effecting local delis and pick-ups and have led out 10 E-Autos to enable delivery at Hubballi, where our head office is situated. Gradually we would be deploying more and more of such vehicles in the days to come.

As regards Liaison, we are a part of nearly all the important industry bodies and play a proactive role in highlighting and taking up matters for betterment of our surface transport industry. To quote an example, during the year our submissions and representations at the GST council have resulted in several key policy changes benefitting the surface logistics industry as a whole.

1. Governance related to BR:

- a) The Governance related to BR is being reviewed periodically by the Chairman and Managing Director.
Frequency –Annual

Section E: Principle wise performance

P. No.	Description	Response
Principle 1 – Business should conduct and govern themselves with Ethics, Transparency and Accountability		
1.1	Does the policy relating to ethics, bribery and corruption cover only the company? Yes/ No. Does it extend to the Group/Joint Ventures/ Suppliers/Contractors/NGOs / Others?	We are committed to observing good corporate governance practices. Our policy on Code of Ethics and Business Code which is applicable to all employees and Directors to guide them to conduct business in an ethical, responsible and transparent manner. Presently, we have not covered outsiders such as Contractors / Suppliers etc. and would do so in due course. Our policy lays down the conduct expectations for our employees while dealing with the outside world. We do not propose to include outsiders under our policy for the time being.
1.2	How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.	No complaints in this regard were received during the year.

Principle 2 - Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle.

2.1	List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.	We are engaged in providing logistics solutions and none of our business operations have any inherent design capable of adversely impacting society or environment. In fact we are proactive and continuously strive to implement energy efficient equipments, non-conventional energy sources and alternate non-polluting fuel, usage of electric forklifts for material handling, usage of e-autos etc.
2.2	For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional): a) Reduction during sourcing/production/ distribution achieved since the previous year throughout the value chain? (b) Reduction during usage by consumers (energy, water) has been achieved since the previous year?	NA
2.3	Does the company have procedures in place for sustainable sourcing (including transportation)? If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.	We have set up a robust sourcing procedure. Our procurement and commercial policies include several parameters based on which suppliers are evaluated and selected for supplying various materials. It is pertinent to note here that our relationships with vendors are long term in nature. Major Commercial vehicle manufacturers like Ashok Leyland and Volvo Eicher have set up their own stores in our vehicle maintenance premises. Periodic supplier evaluation is being undertaken. During the year, our procurement from domestic vendors was in excess of 99%.
2.4	Has the company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work? If yes, what steps have been taken to improve their capacity and capability of local and small vendors?	As indicated nearly 100% of our procurement is indigenous. We encourage local industrial units in sourcing our vehicle maintenance related procurements.
2.5	Does the company have a mechanism to recycle products and waste? If yes what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%). Also, provide details thereof, in about 50 words or so.	We do not generate significant waste as our operations are scattered across the country. It is pertinent here to however state that our centralized vehicle maintenance facility at Varur, Hubballi, has a suitable discharge treatment mechanism. All our major hubs and facilities have proper discharge treatment systems in place.

Principle 3 - Businesses should promote the well-being of all employees

VRL employs nearly 20000 individuals across India. We belong to the surface transportation industry which is highly unorganized in India and majority of the workforce comprises of semi-skilled and unskilled employees. Contrary to general industry practice, we however ensure that our employees are extended all Statutory benefits such as PF, ESI and group insurance coverage for select employee category. We ensure that our work timings are reasonable and provides a proper work-life equilibrium. Our attrition rates are the lowest in our industry and most of our middle and senior management staff are with the Company since decades.

3.1	Please indicate the total number of employees	We had 19698 employees as of March 31, 2020
3.2	Please indicate the total number of employees hired on contractual/ casual basis	We do not hire individuals on contract basis
3.3	Please indicate the total Number of permanent women employees.	280
3.4	Please indicate the number of permanent employees with disabilities	7

3.5	Do you have an employee association that is recognized by management?	We do not have any employee union in our Company
3.6	What percentage of your permanent employees is members of this recognized employee association?	Not Applicable
3.7	Please indicate the Number of complaints relating to child labour, forced labour, involuntary labour, sexual harassment in the last financial year and pending, as on the end of the financial year.	There were no instances of any child labor, forced / involuntary labor, discriminatory employment during the FY 19-20. No Sexual Harassment complaints were received during the year.
3.8	What percentage of your under mentioned employees were given safety & skill up-gradation training in the last year? Principle 4 - Businesses should respect the interests of and be responsive towards all stakeholders, especially those who are disadvantaged, vulnerable and marginalized

4.1	Has the company mapped its internal and external stakeholders? Yes/No	We have identified our stakeholders, both internal as well as external, who directly or indirectly influence our business. Our key stakeholders include Employees, Customers, Shareholders, Suppliers, Bankers, Government Regulators and Local communities.
4.2	Out of the above, has the company identified the disadvantaged, vulnerable & marginalized stakeholders?	We opine that we cannot have a general classification whereby we consider one / many of the above stakeholder category to be 'vulnerable'. However among the above stakeholder category of Local community we have identified the lack of health awareness as also dearth of good educational facilities at select locations and we try to do our bit as Staff Welfare measures as also contribute to activities under CSR predominantly relating to Healthcare, Sports and Education towards a betterment of the local populace.
4.3	Are there any special initiatives taken by the company to engage with the disadvantaged, vulnerable and marginalized stakeholders? If so, provide details thereof, in about 50 words or so.	We have identified healthcare, sports and education as it key focus areas and works towards a betterment of the local populace. Apart from the same we have also participated in limb replacement camps, health awareness camps, contribution to select deserving schools, hospice and hospitals etc. during the year. For more details, please refer "Corporate Social Responsibility" section of Director's Report of the Annual Report.

Principle 5 - Businesses should respect and promote human rights

5.1	Does the policy of the company on human rights cover only the company or extend to the Group/Joint Ventures/Suppliers /Contractors /NGOs/Others?	Our policies cover only our employees and do not extend to external stakeholders. Also the very basic culture of our organization is based on extending respect to all concerned, especially when we deal with lakhs of bus passengers travelling on our buses, dealing with thousands of customers on a daily basis as also engaging the services of outside vehicles requiring extensive engagement with external drivers and diverse workforce.
5.2	How many stakeholder complaints have been received in the past financial year and what percent was satisfactorily resolved by the management?	We were not in receipt of any complaints which can be covered under the ambit of human rights during the year.

Principle 6 - Business should respect, protect and make efforts to restore the environment

6.1	Does the policy of the company on human rights cover only the company or extend to the Group/Joint Ventures/Suppliers /Contractors /NGOs/ Others?	We do not have a documented environment policy. We would come out with a policy with due consideration to the nuances and requirements as applicable to us. The norms applicable to commercial vehicles w.r.t. pollution are ever changing and the Government is also shortly committed to implementing vehicle aging and related replacement policy. We would come out with a policy only once the ever changing regulatory dynamism surrounding this matter achieves some stability. We wish to also emphatically submit that we are in full compliance with all the environmental laws applicable to us.
6.2	Does the company have strategies/ initiatives to address global environmental issues such as climate change, global warming, etc? Y/N. If yes, please give hyperlink for webpage etc.	<p>As indicated we do not have a documented policy and resultantly any documented literature enumerating our strategies on that front.</p> <p>We would however like to state that the lack of a documented policy does not mean that we do not appreciate the importance of the issues relating to environment. We are very environment cautious and wish to state as under</p> <ul style="list-style-type: none"> - We have installed a wind farm with a present day capacity of 42.50 MW and the said project has due recognition under the United Nations Framework on Climate Change Convention - We are eligible for carbon credits and have earned significant revenue from the sale of such units as well in the past - All our vehicles are in compliance with the emission norms - We ensure good quality of fuel and reduce emissions and wastages by usage of additives as well - We encourage and use alternative fuel such as bio-fuel – in fact we believe that we are the pioneers in the usage of this fuel for commercial vehicles - We have installed solar panels for electricity in most of our bigger branches - We are gradually phasing out our diesel forklifts and replacing the same with battery operated forklifts in our warehouses which do not pollute at all <p>The above list is not exhaustive and above are a few of the initiatives implemented by us as an environment conscious entity.</p>
6.3	Does the company identify and assess potential environmental risks? Y/N	Yes we do and also initiate remedial measures a few of which are listed above
6.4	Does the company have any project related to Clean Development Mechanism? If so, provide details thereof, in about 50 words or so. Also, if yes, whether any environmental compliance report is filed?	<p>We have installed a wind farm with a capacity of 40 MW at Kappatgudda in Gadag district of Karnataka.</p> <ul style="list-style-type: none"> - The said project was one among the very few projects which got due recognition under the United Nations Framework on Climate Change Convention - We are eligible for carbon credits and have earned significant revenue from the sale of such units as well in the past - We had a tie up with the Asian Development Bank (ADB) which procured these Carbon Credits from us in the past
6.5	Has the company undertaken any other initiatives on – clean technology, energy efficiency, renewable energy, etc. Y/N. If yes, please give hyperlink for web page etc.	Please refer para 6.2 above.

6.7	Number of show cause/ legal notices received from CPCB/ SPCB which are pending (i.e. not resolved to satisfaction) as on end of Financial Year.	During the year the Company did not receive any such notice.

Principle 7 - Businesses, when engaged in influencing public and regulatory policy, should do so in a responsible manner

7.1	Is your company a member of any trade and chamber or association? If Yes, Name only those major ones that your business deals with:	We are a member of the below – - All Indian Motor Transport Congress (AIMTC) the nodal body of surface logistics players in the country. We are members of the State Level Goods Transport Associations` - Members of the Federation of Karnataka of Chamber of Commerce and Industry(FKCCI) - Approved Logistics Service Provider of the Indian Banks Association - Members of International Air Transport Association (IATA) - Members of the Bus Operators Confederation of India (BOCI) etc. - Member of the Karnataka Tourist Bus Operators Association
7.2	Have you advocated/lobbied through above associations for the advancement or improvement of public good? Yes/No; if yes specify the broad areas (drop box: Governance and Administration, Economic Reforms, Inclusive Development Policies, Energy security, Water, Food Security, Sustainable Business Principles, Others)	We have participated in the various forums of the above organizations and actively take up matters which we consider as industry grievances.

Principle 8 – Businesses should support inclusive growth and equitable development

8.1	Does the company have specified programmes /initiatives/projects in pursuit of the policy related to Principle 8? If yes details thereof.	Our CSR initiatives are based on the principle of making enduring impact through programs that promote social and economic inclusion. We strongly believe that we can sustain in the society only if it is not deprived of good health and sound education. We promote and participate in projects related to healthcare, health awareness, yoga, educations, sports facilities etc. with due consideration to the underprivileged and marginalized sections of the local community. For more details, please refer "Corporate Social Responsibility" section of Director's Report of Annual Report 2017-18.
8.2	Are the programmes/projects undertaken through in-house team/own foundation/external NGO/government structures/ any other organization?	Our CSR initiatives were hitherto carried out under the aegis of "VRL Foundation" a trust formed by us and new predominantly way of direct participation / contribution to projects deemed deserving.
8.3	Have you done any impact assessment of your initiative?	We have not specifically conducted an impact assessment but wish to acknowledge the tremendous positive feedback received on our initiatives
8.4	What is your company's direct contribution to community development projects- Amount in INR and the details of the projects undertaken?	During FY 2019-20, our Company spent an amount of ₹ 278.65 lakhs towards its CSR initiatives. For more details, please refer "Corporate Social Responsibility" section of Director's Report.
8.5	Have you taken steps to ensure that this community development initiative is successfully adopted by the community? Please explain in 50 words, or so.	We have taken steps to ensure that our initiatives are successfully adopted by the community. We undertake a thorough study prior to committing ourselves. We ensure that our diligence is comprehensive enough to warrant a commitment. Our executives are also selectively attached to different initiatives and they too spend sufficient time and oversee the implementation of our initiatives.

Principle 9 - Businesses should engage with and provide value to their customers and consumers in a responsible manner		
9.1	What percentage of customer complaints/consumer cases are pending as on the end of financial year.	2.56% of the customer complaints remained pending as on 31st March 2020. Also a total of 74 consumer forum cases are pending in relevant District / State consumer forums
9.2	Does the company display product information on the product label, over and above what is mandated as per local laws? Yes /No /N.A. /Remarks (additional information)	Not applicable
9.3	Is there any case filed by any stakeholder against the company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behavior during the last five years and pending as on end of financial year. If so, provide details thereof, in about 50 words or so.	No cases relating to Unfair Trade Practice, Irresponsible advertising or anti-competitive behavior were filed that remain pending as of the end of the financial year. We have already stated the total consumer cases pending in 9.1 above.
9.4	Did your company carry out any consumer survey/consumer satisfaction trends?	We regularly interact with our customers to get their feedback on our services and deliverables. We have not carried out any specific consumer survey though. We have dedicated 24/7 customer care set up for our goods as well as passenger business.

REPORT ON CORPORATE GOVERNANCE

The Company's philosophy on Corporate Governance has been developed with a tradition of fair and transparent governance. Transparency, integrity, professionalism and accountability based values form the basis of the Company's philosophy for Corporate Governance and the continued application of these principles to the business practices has led to the growth of the Company over the years. The Company believes that corporate governance is beyond financial results and is a pre-requisite to the attainment of excellent performance in terms of stakeholders' long term value creation. The Company believes Corporate Governance is an ethically driven business process that is committed to values, aimed at enhancing an organization's brand and reputation. Hence, it is imperative to establish, adopt and follow best corporate governance practices, thereby facilitating effective management and carrying out our business by setting principles, benchmarks and systems to be followed by the Board of Directors (the "Board"), Management and all Employees in their dealings with Customers, Stakeholders and Society at large.

The objective of the Company is not only to achieve excellence in Corporate Governance by conforming to prevalent mandatory guidelines on Corporate Governance but also to improve on these aspects on an ongoing basis with a continuous attempt to innovate in adoption of best business practices for value creation. The Company believes that good Corporate Governance is a continuous improvement seeking process and strives to further improve the Corporate Governance practices to meet the expectations of all the stakeholders.

We detail hereunder the Company's compliance with Regulation 34(3) read with Schedule V of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (hereinafter referred to as "SEBI Listing Regulations"):

I) Board of Directors

The Board is at the core of our corporate governance practice and oversees how the Management serves and protects the long-term interests of our stakeholders. We believe that an active, well-informed and independent Board is necessary to ensure the highest standards of corporate governance.

(a) Composition of the Board

The composition of the Board is in conformity with Section 149 of the Companies Act, 2013 and Regulation 17 of the SEBI Listing Regulations, which stipulates that the Board should have optimum combination of executive and non-executive directors with at least one Independent woman director and at least 50% of the Board should consist of independent directors, as the Chairman of our Board is an executive director.

As on March 31, 2020, the Board comprised of twelve Directors. Out of these, four are Executive Directors - Chairman & Managing Director, Managing Director who are also the Promoters of the Company and, by virtue of the Company's Articles of Association not liable to retire by rotation, and two other whole-time directors who are liable to retire by rotation.

Of the eight Non-Executive Directors, six are Independent Directors (IDs). The Company has appointed two Independent Woman Directors. The Directors possess the requisite qualifications, expertise and experience in general corporate management, finance, banking, academics, law and other allied fields enabling them to contribute effectively in their capacity as Directors of the Company.

None of the Directors of the Company are related to each other except Dr. Vijay Sankeshwar, Chairman & Managing Director (CMD) and Mr. Anand Sankeshwar, Managing Director (MD) who are related to each other.

The Company has issued a formal appointment letter to the IDs, as required under Section 149 of the Companies Act, 2013 read with schedule IV of the Companies Act, 2013. The terms and conditions of appointment of IDs is available on the Company's website www.vrlgroup.in.

(b) Number of Board Meetings

The committee also works with the Board on the Leadership Succession Plan and prepares Contingency Plans for succession in case of any exigencies.

Board evaluation and criteria for evaluation of performance of independent directors

Pursuant to Section 134 of the Companies Act, 2013, the Board is responsible for an annual evaluation of its own performance as also the performance of its committees & Individual Directors as also its Chairperson. Further, under Regulation 17 of SEBI Listing Regulations, performance evaluation of the Independent Directors shall be done by the Board of Directors, excluding directors being evaluated. During the year, Board in concurrence with Nomination and Remuneration Committee has laid down the evaluation criteria for itself, its Committees, Chairperson, Executive and Non-Executive Directors and Independent Directors.

The evaluation was carried out through a structured questionnaire covering various aspects of the functioning of the Board and its committees. The Board in consultation with Nomination and Remuneration Committee has laid down varying criteria to be adopted in the evaluation of different directors. Suitable mechanism also exists to ensure that the concerned individual is given due feedback to help him/her appreciate the aspects considered important by other co-directors.

The following parameters were considered to evaluate the performance of the independent Directors:

- Integrity, maintenance of high standard and confidentiality;
- Commitment and participation at the Board & Committee meetings;
- Effective deployment of knowledge and expertise;
- Exercise of independent judgment in the best interest of the Company;

- Interpersonal relationships with other directors and management.

The following parameters were considered to evaluate the performance of the Board and Committees:

- Size and structure of the Board/Committees;
- Board diversity with respect to Background / experience / competence / gender / etc.
- Review of strategies, risk assessment, robustness of policies and procedures as also organizational culture by the Board;
- Review of the financial reporting process & monitoring Company's internal control system with a special focus on internal controls in relation to financial reporting;
- A review of the overall quality of Board meetings in terms of frequency, notice, agenda circulation, sufficiency of time for meaningful deliberations and quality of discussions;
- Review of flow of information to the Board members, Comprehensive coverage of matters in the agenda papers, conduct of meeting, etc.;
- Effective discharge of functions by the Committee vis-a-vis their terms of reference;
- Appropriateness and timeliness of reports relating to compliance with laws and regulations as are applicable to the Company;
- Review of engagement with senior management team by the Committees and the Board;
- Existence of a mechanism to address potential conflict of interest, appointment / retirement / grievance redressal and remuneration of Board members;
- Review of the time spent by the Board on policy and strategy issues and action plans.

The duly completed structured questionnaire was collected from the individual directors. The feedback received on evaluation process was accumulated and there was an unanimous conclusion whereby the Directors recognized that the Board and its Committees were functioning effectively and acknowledged the efforts and contributions made by the Chairperson, Managing Director, Executive Directors, Non-Executive Directors and Independent Directors towards the Board's functioning.

The Board also acknowledged the efforts put in by the Executive, Non-executive and Independent Directors and on the basis of the above parameters concluded that its overall functioning as also the functioning of its committees is effective. Feedback on performance of individual directors was provided to them and the same was also accepted as satisfactory. The performance of the Chairperson was found to be very effective.

Independent Auditor's Report

To the Members of VRL Logistics Limited

Report on the Audit of the Financial Statements

Opinion

1. We have audited the accompanying financial statements of VRL Logistics Limited (the 'Company'), which comprise the Balance Sheet as at 31 March 2020, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under Section 133 of the Act, of the state of affairs of the Company as at 31 March 2020, and its profit (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Our responsibilities under those standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

4. We draw attention to Note 46 in the accompanying financial statements, which describes management's assessment of uncertainty relating to the effects of the COVID-19 pandemic on the Company's operations. Our opinion is not modified in respect of this matter.

Key Audit Matters

5. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
6. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matter	How our audit addressed the key audit matter
<p>Revenue recognition - Goods transport and Bus operations (Refer Note 1(n) and Note 23 of the accompanying financial statements)</p> <p>The Company has high volume of transactions each day recorded across various branches and through agencies using complex information technology systems which are linked to the financial reporting process. A high number of sale transactions in goods transport and bus operations business are settled in cash. Further, Standards on Auditing mandate a presumed significant risk of fraud in revenue recognition.</p> <p>Further, management is required to make certain key judgements relating to identifying contracts with customers, performance obligations involved in contracts, determining transaction price which involves variable consideration elements, allocation of the transaction price to such performance obligations and satisfaction of performance obligations.</p> <p>Due to the significance of the item to the financial statements, complexities involved including high inherent risk associated with cash transactions, information technology systems relied on and management judgement involved for ensuring appropriateness of accounting treatment of revenue generated from goods transport and bus operations business, this matter has been identified as a key audit matter for the current year's audit.</p>	<p>Our audit work included, but was not limited to, the following procedures:</p> <ul style="list-style-type: none"> • Understood the revenue and receivable business process for goods transport and bus operations, and assessed the appropriateness of the accounting policy adopted by the Company for revenue recognition. • Evaluated the design and implementation of the key financial and Information Technology (IT) controls around the revenue recognition process including controls around issuance of invoices/ bus tickets to customers based on underlying goods consignment notes and other evidences around service delivery, price approvals, cash collections and timing of transaction recording in the books of account including cut off procedures. • Tested operating effectiveness of above identified key controls over the recognition and measurement of revenue during the year and as at year end. • Assessed the appropriateness of the accounting policy for revenue recognition from goods transport and bus operations business in accordance with Ind AS 115, 'Revenue from Contracts with Customers'. • Inspected the internal audit reports for any observations reported based on such internal audits conducted at branches during the year on rotation basis to evaluate if any such observations materially impact the financial statements or impact our assessment of relevant key internal financial controls tested as above or otherwise materially impacts recognition and measurement of revenue. • Performed test of details on a sample of revenue transactions recorded during the year including specific periods before and after year end. For the samples selected, inspected supporting documents such as invoices, contracts, goods consignment notes, evidence of delivery of service, cash receipt, etc. • Performed substantive analytical procedures like occupancy analysis for bus operations, tonnage growth, price yield growth, etc. • On a sample basis, compared the daily cash collection with the bank deposit reconciliation prepared by each branch and agency and submitted to head office periodically by tracing the same to relevant bank statements. • Tested the appropriateness and rationale for specific manual journal entries impacting revenue, as well as other adjustments made in the preparation of the financial statements, selected through a combination of risk-based and high-value transactions selection criteria • Evaluated the appropriateness and adequacy of the related disclosures made in the financial statements for revenue recorded during the year.

<p>Adoption of Ind AS 116 effective from 1 April 2019</p> <p>(Refer Note 1(g), Note 2(a) and Note 40 of the accompanying financial statements)</p> <p>The Company has adopted Ind AS 116, 'Leases' effective 1 April 2019, which replaces the existing standard Ind AS 17. The Company has chosen to apply the 'modified retrospective approach' on the date of initial recognition and recognised the cumulative adjustments to retained earnings.</p> <p>The Company has discounted lease payments using the incremental borrowing rate as at 1 April 2019 for measuring lease liabilities at ₹ 27,047.16 lakhs and accordingly recognised right-of-use assets at ₹ 24,623.53 lakhs by adjusting retained earnings by ₹ 1,911.20 lakhs (net of tax), including adjustments for prepaid/accrued rent and lease equalisation reserve, as at the aforesaid date.</p> <p>In order to compute the transition impact of Ind AS 116, a significant data extraction exercise was undertaken by management to summarize all property and equipment lease data. The determination of transition impact involved application of significant judgements and estimates including determination of leases, lease term including termination and renewal option, use of practical expedients, and discount rates for each lease.</p> <p>Owing to the materiality of the impact of implementation of this new standard, together with the inherent subjectivity related to principal assumptions such as discount rates, we have identified the adoption of Ind AS 116 as a key audit matter for the current year audit.</p>	<p>Our audit work included, but was not limited to, the following procedures:</p> <ul style="list-style-type: none"> • Obtained an understanding of the management's process for identification of leasing arrangements which are considered to be within the scope of Ind AS 116, Leases, and tested the design and effectiveness of management's controls relating to identification and accounting of lease contracts, the impact of transition to Ind AS 116 and disclosures; • Reviewed the overall impact analysis prepared by the Company including completeness of lease contracts, lease term and application of practical expedients • Tested the reasonableness of key assumptions used including discount rate, lease terms and measurement principles using auditor's experts. • Tested the inputs and calculations of the right-of-use assets and lease liability, prepared by the management for each material lease contract. • Verified the accuracy of the underlying lease data used to calculate the transitional impact, by agreeing a representative sample of leases to original contracts or other supporting information; • Verified the integrity and arithmetical accuracy of Ind AS 116 calculations for each sample, through recalculation of the Ind AS 116 adjustments. • Evaluated the appropriateness and adequacy of disclosures made in the financial statements with respect to lease liability and right-of-use assets recorded during the year, in accordance with Ind AS 116.

Information other than the Financial Statements and Auditor's Report thereon

7. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

8. The accompanying financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
9. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
10. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

11. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
12. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls;
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;
 - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
13. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
14. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
15. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

16. As required by Section 197(16) of the Act, based on our audit, we report that the Company has paid remuneration to its directors during the year in accordance with the provisions of and limits laid down under Section 197 read with Schedule V to the Act.
17. As required by the Companies (Auditor's Report) Order, 2016 (the 'Order') issued by the Central Government of India in terms of Section 143(11) of the Act, we give in Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the Order.
18. Further to our comments in Annexure A, as required by Section 143(3) of the Act, based on our audit, we report, to the extent applicable, that:
- a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the accompanying financial statements;
 - b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) the financial statements dealt with by this report are in agreement with the books of account;
 - d) in our opinion, the aforesaid financial statements comply with Ind AS specified under Section 133 of the Act;
 - e) on the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2020 from being appointed as a director in terms of Section 164(2) of the Act;
 - f) we have also audited the internal financial controls with reference to financial statements of the Company as on 31 March 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date and our report dated 20 June 2020 as per Annexure B expressed an unmodified opinion;
 - g) with respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

-
- i. the Company, as detailed in note 33 to the financial statements, has disclosed the impact of pending litigations on its financial position as at 31 March 2020;
 - ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2020;
 - iii. there has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended 31 March 2020;
 - iv. the disclosure requirements relating to holdings as well as dealings in specified bank notes were applicable for the period from 8 November 2016 to 30 December 2016, which are not relevant to these financial statements. Hence, reporting under this clause is not applicable.

Annexure A to the Independent Auditor's Report of even date to the members of VRL Logistics Limited, on the financial statements for the year ended 31 March 2020

Based on the audit procedures performed for the purpose of reporting a true and fair view on the financial statements of the Company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets (Property, plant and equipment).
 - (b) The fixed assets (Property, plant and equipment) have been physically verified by the management during the year and no material discrepancies were noticed on such verification. In our opinion, the frequency of verification of the fixed assets (Property, plant and equipment) is reasonable having regard to the size of the Company and the nature of its assets.
 - (c) The title deeds of all the immovable properties (which are included under the head 'Property, plant and equipment') are held in the name of the Company.
- (ii) In our opinion, the management has conducted physical verification of inventory at reasonable intervals during the year and no material discrepancies between physical inventory and book records were noticed on physical verification.
- (iii) The Company has not granted any loan, secured or unsecured to companies, firms, Limited Liability Partnerships (LLPs) or other parties covered in the register maintained under Section 189 of the Act. Accordingly, the provisions of clauses 3(iii)(a), 3(iii)(b) and 3(iii)(c) of the Order are not applicable.
- (iv) In our opinion, the Company has not entered into any transaction covered under Sections 185 and 186 of the Act. Accordingly, the provisions of clause 3(iv) of the Order are not applicable.
- (v) In our opinion, the Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under sub-section (1) of Section 148 of the Act in respect of sale of power and are of the opinion that, *prima facie*, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii) (a) The Company is regular in depositing undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, goods and services tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues, as applicable, to the appropriate authorities. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they become payable.
 - (b) The dues outstanding in respect of income-tax, sales-tax, service-tax, goods and services tax, duty of customs, duty of excise and value added tax on account of any dispute, are as follows:

Annexure B to the Independent Auditor's Report of even date to the members of VRL Logistics Limited, on the financial statements for the year ended 31 March 2020

Independent Auditor's report on the Internal Financial Controls with reference to the financial statements under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (the 'Act')

1. In conjunction with our audit of the financial statements of VRL Logistics Limited (the 'Company') as at and for the year ended 31 March 2020, we have audited the internal financial controls with reference to financial statements of the Company as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (the 'ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility for the Audit of the Internal Financial Controls with reference to Financial Statements

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing, issued by the ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ('the Guidance Note') issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with reference to Financial Reporting

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted

Annexure B to the Independent Auditor's Report of even date to the members of VRL Logistics Limited, on the financial statements for the year ended 31 March 2020

accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Reporting

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2020, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Summary of the significant accounting policies and other explanatory information for the year ended 31 March 2020

Company Overview

VRL Logistics Limited (the “Company”) is engaged in logistics services dealing mainly in domestic transportation of goods. Other businesses include bus operations, transport of passengers by air, sale of power and sale of certified emission reductions (CER) units generated from operation of wind mills. The operations of the Company are spread all over the country through various branches and transshipment hubs.

The Company has its registered office in Hubballi, Karnataka.

1 Significant Accounting Policies

a) Basis for preparation of financial Statements

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS'), as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('Act') read with the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act.

The financial statements have been prepared on a historical cost convention and accrual basis, except for certain financial assets and liabilities measured at fair value and plan assets towards defined benefit plans, which are measured at fair value.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle (twelve months) and other criteria set out in the Schedule III to the Act.

b) Use of estimates and judgements

The estimates and judgements used in the preparation of the financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Differences between actual results and estimates are recognised in the period in which the results are known/ materialised.

The said estimates are based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date.

c) Property, plant and equipment (including Capital work-in-progress)

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent cost is included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

If significant parts of an item of property, plant and equipment have different useful lives then they are accounted for as separate components of property, plant and equipment. The Company has recognised major inspection costs relating to engine and airframe overhauls and other heavy maintenance expenditure as separate components for aircrafts.

The carrying amount of any component accounted for as a separate asset is derecognised when replaced or disposed. All other repairs and maintenance expenses are charged to Statement of profit and loss during the reporting period in which they are incurred.

Summary of the significant accounting policies and other explanatory information for the year ended 31 March 2020

Gains or losses arising on retirement or disposal of property, plant and equipment are recognised in the statement of profit and loss.

Assets acquired but not ready for use are classified under Capital work in progress and are stated at cost comprising direct cost and related incidental expenses.

d) Investment Property

Investment property is the property that is not occupied by the Company, and which is held to earn rentals or for capital appreciation, or both. Upon initial recognition, an investment property is measured at cost, including directly attributable overheads, if any. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment loss, if any.

Any gain or loss on disposal of an investment property is recognised in Statement of profit and loss, unless any other standard specifically requires otherwise.

Company depreciates the investment property using the straight line method over the useful lives of assets as prescribed under Part C of Schedule II of the Act

The fair value of investment property is disclosed in the notes. The fair value is determined by an independent valuer who holds a recognised and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

e) Intangible assets

Intangible assets are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any. Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the Statement of Profit and Loss.

f) Depreciation/Amortisation

- i. Depreciation is provided under the straight line method over the useful lives of assets as prescribed under Part C of Schedule II of the Act except on Vehicles and Wind Turbine Generators (part of Plant and equipment).

Vehicles and Wind Turbine Generators are depreciated over a period of nine years and nineteen years respectively, based on internal assessment and independent technical evaluation carried out by external valuer; the management believes that the useful life as mentioned represents the period over which management expects to use these assets. Hence, the useful life for these assets are different from the useful life as prescribed under Part C of Schedule II of the Act.

Major inspection costs relating to engine and airframe overhauls and other heavy maintenance expenditure are identified as separate components for aircrafts and are depreciated over the expected lives between major overhauls and remaining useful life of the aircraft, whichever is lower.

- ii. Cost of leasehold improvements is amortised over the period of the lease or its useful life, whichever is lower.
- iii. Computer Software is amortized over a period of five years.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

The residual values are not more than 5% of the original cost of the asset.

g) Measurement and recognition of leases

The Company considers whether contract is, or contains a lease. A lease is defined as 'a contract, or part of

Summary of the significant accounting policies and other explanatory information for the year ended 31 March 2020

a contract, that convey the right to use an asset (the underlying asset) for a period of time in exchange for consideration'.

To apply this definition, the Company assesses whether the contract meets three key evaluations which are whether:

- the contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Company.
- the Company has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract.
- the Company has the right to direct the use of the identified asset throughout the period of use. The Company assesses whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

Company as a lessee

At lease commencement date, the Company recognises a right-of-use asset and a lease liability on the balance sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Company and any lease payments made in advance of the lease commencement date.

The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist.

At the commencement date, the Company measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Company's incremental borrowing rate.

Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance, fixed), and payments arising from options reasonably certain to be exercised. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest expenses. It is remeasured to reflect any reassessment or modification.

When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset or Statement of profit and loss, as the case may be.

The Company has elected to account for short-term leases and leases of low-value assets using the exemption given under Ind AS 116, Leases. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in profit or loss on a straight-line basis over the lease term or on another systematic basis if that basis is more representative of the pattern of the Company's benefit.

Company as a lessor

Lease income from operating leases where the Company is a lessor is recognised as income on straight line basis over the lease term .

h) Impairment of non-financial assets

Assessment is done at each Balance Sheet date to evaluate whether there is any indication that a non-financial asset may be impaired. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a cash generating unit. If any such indication exists, an estimate of the recoverable amount of the asset/cash generating unit is made. Assets whose carrying

Summary of the significant accounting policies and other explanatory information for the year ended 31 March 2020

value exceeds their recoverable amount are written down to their recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. A previously recognised impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

i) Foreign currency transactions

Functional and presentation currency

The financial statements are presented in currency INR, which is the functional and presentation currency of the Company.

Foreign currency transactions and balances

- i. Transactions denominated in foreign currencies are recorded at the exchange rate prevailing at the date of the transaction.
- ii. Monetary assets and liabilities denominated in foreign currencies at the year-end are restated at the rate of exchange prevailing on the date of the Balance Sheet.
- iii. Any exchange difference on account of settlement of foreign currency transactions and restatement of monetary assets and liabilities denominated in foreign currency is recognised in the Statement of Profit and Loss.
- iv. Non-monetary items are not retranslated at year-end and are measured at historical cost (translated using the exchange rates at the transaction date), except for non-monetary items measured at fair value which are translated using the exchange rates at the date when fair value was determined.

j) Financial instruments

A financial instrument is any contract that gives rise to a financial asset in one entity and a financial liability or equity instrument in another entity.

Financial Assets

Initial recognition

In the case of financial assets, not recorded at fair value through profit or loss (FVPL), financial assets are recognised initially at fair value plus transaction costs that are directly attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

(a) Financial Assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business model with an objective to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding. Interest income from these financial assets is included in finance income using the effective interest rate ("EIR") method. Impairment gains or losses arising on these assets are recognised in the Statement of Profit and Loss.

**Summary of the significant accounting policies and other explanatory information for the
year ended 31 March 2020**

(b) Financial Assets measured at fair value

Financial assets are measured at fair value through other comprehensive income (FVOCI) if these financial assets are held within a business model with an objective to hold these assets in order to collect contractual cash flows or to sell these financial assets and the contractual terms of the financial asset give rise on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding. Movements in the carrying amount are taken through

OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in the Statement of Profit and Loss.

Financial assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss.

Impairment of Financial Assets

In accordance with Ind AS 109, the Company applies the expected credit loss ("ECL") model for measurement and recognition of impairment loss on financial assets and credit risk exposures.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. Simplified approach does not require the Company to track changes in credit risk.

Rather, it recognises impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL impairment loss allowance (or reversal) recognised during the period is recorded as expense/ income in the Statement of Profit and Loss.

De-recognition of Financial Assets

The Company de-recognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all risks and rewards of ownership of the asset to another entity.

If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the assets and an associated liability for amounts it may have to pay.

If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

Summary of the significant accounting policies and other explanatory information for the year ended 31 March 2020

Equity investments

All equity investments in the scope of Ind AS 109, Financial Instruments, are measured at fair value. For equity instruments, the Company may make an irrevocable selection to present the subsequent fair value changes in Other Comprehensive Income (OCI). The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable. There is no recycling of the amounts from OCI to profit or loss, even on sale of investment. Equity instruments included within the FVTPL (fair value through profit and loss) category are measured at fair value with all changes in fair value recognized in the profit or loss.

Financial Liabilities

Initial Recognition

Financial liabilities are classified, at initial recognition, as financial liabilities at FVPL, loans and borrowings and payables as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

Financial liabilities at FVPL

Financial liabilities at FVPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as FVPL. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognised in the Statement of Profit and Loss.

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation. Amortisation is recognised as finance income in the Statement of Profit and Loss.

Financial liabilities at amortised cost

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in the Statement of Profit and Loss.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

Where the terms of a financial liability is re-negotiated and the Company issues equity instruments to a creditor to extinguish all or part of the liability (debt for equity swap), a gain or loss is recognised in the Statement of Profit and Loss; measured as a difference between the carrying amount of the financial liability and the fair value of equity instrument issued.

De-recognition of Financial Liabilities

Financial liabilities are de-recognised when the obligation specified in the contract is discharged, cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification

Summary of the significant accounting policies and other explanatory information for the year ended 31 March 2020

is treated as de-recognition of the original liability and recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

Offsetting financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

k) Fair value measurement

The Company measures financial assets and financial liability at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable. For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company's Valuation team determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement.

I) Inventories

Consumables, stores and spares are valued at lower of cost and net realisable value; cost is computed on first-in-first out basis. The cost of inventories comprises all costs of purchase and other costs incurred in bringing the inventories to their present location and condition. Stores and spares which do not meet the definition of property, plant and equipment are accounted as inventories. Obsolete, defective, unserviceable and slow/nonmoving stocks are duly provided for. Net realisable value is estimated selling price in ordinary

year ended 31 March 2020**

course of business less the estimated cost necessary to make the sale.

m) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, together with other short-term, highly liquid investments maturing within 90 days from the date of acquisition. Cash and cash equivalents are readily convertible into known amounts of cash and are subject to an insignificant risk of changes in value.

n) Revenue recognition

Revenue is recognized on satisfaction of performance obligation upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services.

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable excluding taxes or duties collected on behalf of the government and reduced by any rebates and trade discount allowed.

Contract assets includes costs incurred to fulfill a contract with a customer. Where the amount of consideration received from a customer exceeds the amount of revenue recognized, this gives rise to a contract liability.

The specific recognition criteria described below must also be met before income is recognised.

- i. Revenue from Goods transport and Courier service is recognised as and when goods and documents are transported
- ii. Revenue from Bus operation and Transport of passengers by air is recognised as and when transportation is provided.
- iii. Revenue from sale of power is recognised upon deposit of units of generated power at the grid of the purchasing electricity company.
- iv. Revenue from sale of eligible carbon credit units such as Verified / Certified Emission Reductions units (VERs)/ (CERs) is recognised on completion of the validation process for units generated and entering of a definitive binding agreement for the sale of such units.
- v. Revenue from hotel operations is recognized upon rendering of service.
- vi. Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses.
- vii. Dividend income is recognised when the right to receive the dividend is established.
- viii. Rent income is recognised on a straight-line basis over the period of the lease.
- ix. Advertisement income is recognised when the related advertisement or commercial appears before the public.

o) Employee benefits

Defined contribution plan

The Company's contribution to Provident Fund and Employees State Insurance Scheme is determined based on a fixed percentage of the eligible employees' salary and charged to the Statement of Profit and Loss on accrual basis. The Company has categorised its Provident Fund, labour welfare fund and the Employees State Insurance Scheme as a defined contribution plan since it has no further obligations beyond these contributions.

Summary of the significant accounting policies and other explanatory information for the year ended 31 March 2020

Defined benefit plan

The Company's liability towards gratuity, being a defined benefit plan are accounted for on the basis of an independent actuarial valuation based on Projected Unit Credit Method. Gratuity liability is funded by payments to the trust established for the purpose.

Service cost and the net interest cost is included in employee benefit expense in the Statement of profit and loss. Actuarial gains and losses comprise experience adjustments and the effects of changes in actuarial assumptions and are recognised immediately in 'other comprehensive income' as income or expense.

Compensated absences

Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the year are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the year end. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Remeasurement as a result of experience adjustments and changes in actuarial assumptions are recognised in the Statement of Profit and Loss.

p) Borrowing costs

General and specific borrowing costs directly attributable to the acquisition/ construction of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use, are added to the cost of those assets, until such time the assets are substantially ready for their intended use. All other borrowing costs are recognised as an expense in Statement of Profit and Loss in the period in which they are incurred.

q) Borrowings and other financial liabilities

Borrowings and other financial liabilities are initially recognised at fair value (net of transaction costs incurred). Difference between the fair value and the transaction proceeds on initial recognition is recognised as an asset / liability based on the underlying reason for the difference.

Subsequently all financial liabilities are measured at amortised cost using the effective interest rate method

Borrowings are eliminated from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss. The gain / loss is recognised in other equity in case of transactions with shareholders.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer the settlement of the liability for at least 12 months after the reporting period.

r) Trade receivables

A receivable is classified as a 'trade receivable' if it is in respect of the amount due on account of services rendered or sale of goods in the normal course of business. Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the EIR method, less provision for impairment.

s) Trade payables

A payable is classified as a 'trade payable' if it is in respect of the amount due on account of goods purchased or services received in the normal course of business. These amounts represent liabilities for goods and services provided to the Company prior to the end of the financial year which are unpaid. These amounts are

Summary of the significant accounting policies and other explanatory information for the year ended 31 March 2020

unsecured and are usually settled as per the payment terms stated in the contract. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the EIR method.

t) Taxation

- i. Tax expense recognised in profit or loss comprises the sum of deferred tax and current tax not recognised in other comprehensive income or directly in equity.
- ii. Current income tax liabilities and/or assets comprise those obligations to, or claims from, fiscal authorities relating to the current or prior reporting periods, that are unpaid at the reporting date. Current tax is payable on taxable profit, which differs from profit or loss in the financial statements. Calculation of current tax is based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Deferred income taxes are calculated using the liability method on temporary differences between the carrying amounts of assets and liabilities and their tax bases.
- iii. Deferred tax assets are recognised to the extent it is probable that the underlying tax loss or deductible temporary difference will be utilised against future taxable income. This is assessed based on the Company's forecast of future operations results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss or credit. Deferred tax is not provided on the initial recognition of goodwill, or on the initial recognition of an asset or liability unless the related transaction is a business combination or affects tax or accounting profit.
- iv. Changes in deferred tax assets or liabilities are recognised as a component of tax income or expense in profit or loss, except where they relate to items that are recognised in other comprehensive income or directly in equity, in which case the related deferred tax is also recognised in other comprehensive income or equity, respectively.

u) Provisions and Contingent liabilities

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Contingent liabilities are disclosed in respect of possible obligations that arise from past events, whose existence would be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Such liabilities are disclosed by way of

notes to the financial statements. No disclosure is made if the possibility of an outflow on this account is remote.

v) Significant management judgements in applying accounting policies and estimation uncertainty

When preparing the financial statements, management makes a number of judgements, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Impairment of non-financial assets

In assessing impairment, management estimates the recoverable amount of each asset or cash-generating unit based on expected future cash flows and uses an interest rate to discount them. Estimation uncertainty relates to assumptions about future operating results and the determination of a suitable discount rate.

**Summary of the significant accounting policies and other explanatory information for the
year ended 31 March 2020**

Depreciation and useful lives of property, plant and equipment

Property, plant and equipment are depreciated over the estimated useful lives of the assets, after taking into account their estimated residual value. Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation to be recorded during any reporting period. The useful lives and residual values are based on the Company's historical experience with similar assets and take into account anticipated technological changes. The depreciation for future periods is adjusted if there are significant changes from previous estimates.

Recoverability of trade receivable

Judgements are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

Provisions

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability require the application of judgement to existing facts and circumstances, which can be subject to change. Since the cash outflows can take place many years in the future, the carrying amounts of provisions and liabilities are reviewed regularly and adjusted to take account of changing facts and circumstances.

Defined benefit obligation (DBO)

Management's estimate of the DBO is based on a number of critical underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Fair value measurement

Management uses valuation techniques to determine the fair value of financial instruments (where active market quotes are not available) and non-financial assets. This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management bases its assumptions on observable data as far as possible but this is not always available. In that case management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

Contingencies

Management has estimated the possible outflow of resources at the end of each annual reporting financial year, if any, in respect of contingencies/litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy.

Leases – Estimating the incremental borrowing rate

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the fund necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment.

w) Recent Indian Accounting Standards (Ind AS)

'Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from 1 April 2020.'

Company obtains independent valuation of its investment properties atleast annually; the best evidence of fair value is current price in an active market for similar properties. Where such information is not available, Company considers current price in an active market for properties of different nature or recent prices of similar properties in less active market, adjusted to reflect those differences.

E] The Department of Stamps and Registration, Government of Karnataka had issued a notice towards stamp duty payable on acknowledgment of delivery of a letter, article, document, parcel, package or consignment, given by the Company to the sender of such letter, article, document, etc. in accordance with the Karnataka Stamp Act, 1957 (Article- 1 (ii) of the Schedule). The Company has challenged the constitutional validity of the said provision by way of Writ Petition before the Honourable High Court of Karnataka, Circuit Bench at Dharwad. The Writ Petition came-up for hearing and subject to deposit of a sum of ₹ 25 lakhs, the authorities have been directed not to take any coercive action and also to determine the Stamp Duty liability. The Company has paid the deposit of ₹ 25 lakhs but the quantum of Stamp Duty payable is yet to be arrived at by the department. In the opinion of the management, no financial liability is expected to arise in this regard. The financial liability that may ultimately devolve upon the Company is currently not ascertainable and as such no amount has been included as contingent liability towards the same.

(F) Also refer notes 35 for other disputes.

Notes:-

- a. The Company is in appeal against demands on Income Tax, Customs duty, service tax and ESIC dues.
- b. Customs duty liability is in respect of alleged violation of terms and conditions of Non Scheduled Air Transport Service, as claimed by the Customs Department to the extent it can be quantified. The said department has issued a Show cause cum demand notice alleging violation of terms and conditions of Non Scheduled Air Transport Service and demanded, amongst others, customs duty on the import of aircraft, interest and penalty/fine thereon. The Company had earlier availed of the exemption available under the Customs Act, 1962 (the 'Act') and was accordingly assessed to Nil duty under the Act. The Company has deposited the Customs duty, including interest thereon, without prejudice to further rights. These payments have been disclosed under non-current assets in the books of account. The Company has already filed the necessary response to the demand notice and expects a favourable order in this regard.
- c. The above figures for contingent liabilities do not include amounts towards certain additional penalties/interest that may devolve on the Company in the event of an adverse outcome as the same is subjective and not capable of being presently quantified.
- d. Future cash outflows in respect of (A) above can be determined only on receipt of judgments/decisions pending with various forums/authorities.
- e. The amount disclosed in respect of (B) above represents the estimated liability based on independent legal opinion obtained by the management in relation to the various cases of Motor Vehicle Accidents, Consumer disputes, Workmen compensation, etc. filed against the Company.

34 The Honourable Supreme Court, has passed a judgement on 28 February 2019 in relation to inclusion of certain allowances within the scope of "Basic wages" for the purpose of determining contribution to provident fund under the Employees' Provident Funds & Miscellaneous Provisions Act, 1952. The management, based on legal advice obtained, is of the view that the principles enumerated in the judgement is not applicable to the Company considering the nature of allowances paid and the manner in which it is paid on selective basis to the employees and workers of the Company.

"35 The Bhiwandi property admeasuring 240,000 square feet purchased for a total consideration of ₹ 3,240 lakhs from M/s Indian Corporation, represented by its proprietor, Mr.Rudrapratap Urmaliya Tripathi, as a Power of Attorney holder of the original land owners is registered in the name of VRL by paying appropriate stamp duty and registration fees. The Company is in actual and physical possession of the property and has been carrying out its business activities in the aforesaid premises without any hindrance from anybody whatsoever. However, the Company has been facing difficulties in getting its name updated in the relevant Revenue Records i.e 7/12 extract and has accordingly brought this to the notice of the vendor, who is trying to solve the matter and get the name of the Company entered into the Revenue Records as the owner of the property. Considering the fact that the property is already registered in the name of the Company vide Registered Sale Deed and further since the Company is in actual and physical possession of the property and has been carrying out its business activities without any hindrance from anybody whatsoever, except that there has been some difficulty in entering the name of the Company in the Revenue Records, the investment made by the Company is safe and fully recoverable. The Company has also obtained appropriate legal opinion in this regard to support its view. However, in case, for any reasons, entering the name of the Company in the revenue records is not possible, the Vendor has given an option to the Company to buy back the property at mutually agreed consideration, which shall not be less than the purchase price indicated above. Management does not expect any financial impairment of the book value of the aforesaid property considering the representations received from Mr. Rudrapratap Tripathi through his attorney and also the legal opinion obtained by the Company and accordingly no adjustments have been made to the financial statements to this effect."

36 Estimated amount of contracts remaining to be executed on capital account and not provided for (net of advances) - ₹ 520.89 lakhs (31 March 2019: ₹ 12,802.69 lakhs).

37 The land whereat 32 Wind Turbine Generators (WTGs) are installed (at Kappatgudda, Gadag District, Karnataka) is leased to Suzlon Energy Limited by Karnataka Forest Department. Consequently, Suzlon Energy Limited has transferred the lease in favour of the Company with requisite clearances from Karnataka Forest Department.

38 Certified Emission Reductions Credits

In earlier years, the Company had recognised income by trading complete amount of possible Green House Gas (GHG) emission reductions generated by its Windmill project. The Company's Clean Development Mechanism (CDM) project is registered with the United Nations Framework Convention on Climate Change (UNFCCC) and necessary approvals for the trade of carbon credits has been procured.

The Company has Certified Emission Reductions (CERs) balance of 306,431 units (net of 2% CDM administration fees) for the period 1 January 2013 to January 2018 which has been certified.

The financial impact of outstanding CERs remains unrecognised in the books of account, the impact of which, as per the management, is not expected to be material to the financial statements.

40 Leases

The Company has adopted the new accounting standard i.e. Ind AS 116- Leases, which has become effective from 1 April 2019 (transition date). This new standard replaces earlier standard on leases i.e. Ind AS 17.

The adoption of this new Standard has resulted in the Company recognising a right-of-use asset and related lease liability in connection with all former operating leases except for those identified as low-value or having a remaining lease term of less than 12 months from the date of initial application.

The new Standard has been applied using the modified retrospective approach, with the cumulative effect of adopting Ind AS 116 being recognised in equity as an adjustment to the opening balance of retained earnings for the current period. Prior periods have not been restated. The Company has recognised lease liability on the date of initial application at the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of initial application. The Company has recognised a right-of-use asset on the date of initial application at its carrying amount as if the Standard had been applied since the commencement date of lease but discounted using the incremental borrowing rate at the date of initial application. On transition to Ind AS 116, the weighted average incremental borrowing rate applied to lease liabilities recognised was 9% p.a.

Practical expedient opted by Company:

- For contracts in place at the date of transition, the Company has elected to apply the definition of a lease from Ind AS 17 and Appendix C to Ind AS 17 and has not applied Ind AS 116 to arrangements that were previously not identified as lease under Ind AS 17 and Appendix C to Ind AS 17.
- The Company has elected not to include initial direct costs in the measurement of the right-of-use asset for operating leases in existence at the date of transition to Ind AS 116, being 1 April 2019.
- On transition, Company has elected not to apply Ind AS 116 to leases previously accounted for as operating leases, with a remaining lease term of less than 12 months and not recognise right-of-use assets but to account for the lease expense on a straight-line basis over the remaining lease term.

Exemptions availed by Company:

The Company has elected not to recognise right-of-use assets in below mentioned cases but to account for the lease expense on a straight-line basis over the remaining lease term or on another systematic basis if that basis is more representative of the pattern of the Company's benefit:

- A lease that, at the commencement date, has a lease term of 12 months or less i.e. short-term leases and
- leases for which the underlying asset is of low value

The Company has benefitted from the use of hindsight for determining the lease term when considering options to extend and terminate leases.

The Company has discounted lease payments using the incremental borrowing rate as at 1 April 2019 for measuring lease liabilities at ₹ 27,047.16 lakhs and accordingly recognised right-of-use assets at ₹ 24,623.53 lakhs by adjusting retained earnings by ₹ 1,911.20 lakhs (net of tax), including adjustments for prepaid/accrued rent and lease equalisation reserve, as at the aforesaid date.

The impact of adopting Ind AS 116 on the financial statements for the year ended 31 March 2020 is as follows:

Particulars	Year ended 31 March 2020 (Erstwhile basis)	Year ended 31 March 2020 (As per Ind AS-116)	Increase/ (Decrease) in Profit

41 Fair value measurements

Financial instruments by category:

All financial assets and financial liabilities of the Company are under the amortised cost measurement category at each of the reporting dates except Equity investments which are recognised and measured at fair value through profit or loss.

Fair value hierarchy

The following table provides the fair value measurement hierarchy of Company's financial assets and financial liabilities

Category	31 March 2020

Other financial assets	334.43	-	-	334.43
FVTPL financial investments	5.75	-	-	5.75

- During the periods mentioned above, there have been no transfers amongst the levels of hierarchy.
- The carrying amounts of Security deposits (current), trade receivables, other current financial assets, cash and cash equivalents, fixed deposits with banks, current borrowings, trade payables and other current financial liabilities are considered to be approximately equal to their fair value, since those are current in nature.
- The fair values computed above for assets measured at amortised cost are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of indirectly observable inputs.

Valuation process

The Company evaluates the fair value of financial assets and financial liabilities on periodic basis using the best and most relevant data available.

42 Financial risk management objectives and policies

The Company's principal financial liabilities, other than derivatives, comprise borrowings, lease liabilities, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables, and cash and cash equivalents that derive directly from its operations. The Company also holds investments.

The Company is exposed to market risk, credit risk and liquidity risk. Company's senior management oversees the management of these risks. It is Company's policy that no trading in derivatives for speculative purposes may be undertaken. The Board of Directors review and agree policies for managing each of these risks, which are summarised below.

a) Market risk

Market risk is the risk of any loss in future earnings, in realisable fair value or in future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of change in the interest rates, foreign currency exchange rates, liquidity and other market changes. Future specific market movements cannot be normally predicted with reasonable accuracy.

I. Interest rate sensitivity

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Company does not have significant exposure to the risk of changes in market interest rates as Company's long-term debt obligations is at fixed interest rates.

II. Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. However, the Company is not exposed to foreign currency risk since it has no unhedged exposure as at reporting date.

b) Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at a reasonable price. For the Company, liquidity risk arises from obligations on account of financial liabilities – borrowings, lease liabilities, trade payables and other financial liabilities.

Liquidity risk management

Company's treasury department is responsible for liquidity and funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Company's net liquidity position through rolling forecasts on the basis of expected cash flows.

Trade payables	-	610.58	-	-	610.58

c) Credit risk

Credit risk arises from cash and bank balances, current and non-current financial assets, trade receivables and other financial assets carried at amortised cost.

Credit risk management

To manage credit risk, the Company periodically assesses the financial reliability of customers and other counterparties, taking into account the financial condition, current economic trends, analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly. The Company uses a provision margin to compute the expected credit loss allowance for trade receivable.

Bank balances are held with only high rated banks. Trade receivables are generally recovered within the credit period. Accordingly, the provision for impairment is considered immaterial. Also, trade receivables are monitored on periodic basis for any non-recoverability of the dues.

Trade receivables:

The ageing of trade receivables and expected credit loss analysis on these trade receivables is given in the table below:

Particulars	Not due	0-60 days	61-180 days	181-365 days	above 365 days	Total

44 Segment Reporting

The Company's chief operating decision maker - Board of Directors examines the Company's performance from a product perspective and has identified four reportable segments of its business as follows:

- **Goods transport division:** Offers services for the transportation of Goods across India using a range of road transportation solutions to the customers, including less than full truck load and full truck load. Under this segment, Company also does courier business for transportation of small parcels and documents using range of multi model solutions.
- **Bus operations division:** Offers services of transportation solutions through Buses.
- **Sale of power division:** The wind farm consists of Wind Turbine Generators (WTGs) having individual capacity of 1.25 MW.
- **Transport of passengers by air:** Offers services for the transportation of passengers by Air through the Aircrafts owned by the Company. The services are offered to the Individuals and corporate representatives.

The above operating segments have been identified considering:

- (i) The internal financial reporting systems
- (ii) The nature of the product/services
- (iii) The risk return profile of individual divisions

Revenue and expenses has been accounted on the basis of their relationship to the operating activities of the segment. Income and expenses, which relate to the Company as a whole and are not allocable to segments on a reasonable basis, have been included under "Unallocable Income" and "Unallocable Expenses" respectively. Assets and Liabilities, which relate to the enterprise as a whole and are not allocable to segments on a reasonable basis, have been included under "Unallocable Assets/ Liabilities". Inter-segment transfers are accounted for at competitive market prices charged to unaffiliated customers for similar goods/services.

No operating segments have been aggregated to form the above reportable operating segments.
